Note to United States Expresses Willingness to Allow American Diplomatic Representatives to Visit Belgians in New Homes—Counter Charge of Deportation Against Allies

(ASSOCIATED PRESS TELEGRAM)
Berlin, Dec. 11, via London, Dec. 12.—Germany's answer to the American note regarding the deportation of Belgians is confined almost exclusively to a presentation of the situation in Belgium before the deportation order became effective. The note declares that there was urgent need of some kind of work for the Belgians because their idleness was causing demoralization and says that the deported workers are assured of being in new situations in Germany.

The reply volunteers to permit American diplomatic representatives to visit the workmen's camps and assure themselves that the Belgians are well off. It concludes with an expression of regret that the United States has never seen fit to protest against what it describes as the dragging off of Germans from East Prussia, Alsace and other places to Siberia and elsewhere. These actions, of which it accused the allies, are characterized in the reply as a severe violation of the laws of humanity. The note declares that the German government is convinced that the United States has been misinformed in regard to the measures which have been taken and says that the lack of work has increased until 1,250,000 are suffering and an unbearable situation is created. Nothing remained, therefore, the note continues, but to offer the workless situations in Germany, since work for all was not at hand in Belgium. It is contended that the majority of those who have come to Germany are happy and contented, with high wages and increased personal liberties and that only those who prefer to loaf have been compelled to work.

The answer declares that the measure is entirely in accordance with international law and cites Article 43 of The Hague convention, which requires an invading government to maintain order. This, it is maintained, is possible only in Belgium by providing that people who are able to work shall have opportunity to do so and shall not fall a burden on charity. The note says that the measure has been carried out without severity and with all possible consideration. Mistakes, it asserts, have rarely occurred and have been due in part to the fact Belgians themselves erred in making up the lists of those to be transported to Germany by including persons unaffected by Governor General Bissling's order of May 15, 1915.

The note goes on to say that Belgians now working in Germany are engaged in occupations permissible under international law such as agriculture and industry and that the German government regrets extremely that the situation has been completely misrepresented in the United States by the "lying press of Germany's enemies." The German government, it is declared, in the interest of the Belgian people, would also regret if the activities of the Belgian relief committee was affected.

PITTSBURGH MAY GET WEEK'S REST OVER CHRISTMAS.

(ASSOCIATED PRESS TELEGRAM)
Pittsburgh, Dec. 12.—Important manufacturing interests in the Pittsburgh district were today considering the advisability of shutting down their plants December 23 and allowing them to remain idle until January 2, for the two-fold purpose of giving their employees a rest and to enable the railroads to clear tracks east and west of the vast quantities of freight daily being ferried. It was said the machinery at so many needs overhauling, it having been in almost continuous operation for almost a year, a much longer time than usual.

In spite of heroic measures adopted by the railroads, freight continues to pile up at terminals. All freight depots in Pittsburgh are now being operated at night to allow consignees to remove freight, and yesterday the Pittsburgh, Cincinnati Chicago and St. Louis railroad placed an embargo upon all freight except such as shall originate on and be destined to points along its own tracks.

Responsibility For War's Continuation Is On Entente Allies

—BETHMANN-HOLLWEG.

Germany and her allies in the note entrusted to the neutral powers for delivery to her enemies, makes no suggestions as to the terms on which peace overtures would be founded. The note itself, according to advices from Berlin late this afternoon, merely proposes a discussion of peace terms.

Advices from European capitals this afternoon indicate that Germany will be willing to restore the status quo before the war, with the exception of establishment of independent kingdoms of Poland and Lithuania, and excepting also possession of Alsace-Lorraine, certain rights in Belgium and France.

(ASSOCIATED PRESS TELEGRAM)
Berlin, Dec. 12.—Following is the text of the note addressed by Germany and her allies to the hostile governments:
"The most terrific war ever experienced in history has been raging for the last two years and a half over a large part of the world—a catastrophe which thousands of years of common civilization was unable to prevent, and which injures the most precious achievements of humanity. Our aims are not to shatter nor annihilate our adversaries. In spite of our consciousness of our military and economic strength and our readiness to continue the war (which has been forced upon us) until the bitter end, if necessary, at the same time prompted by the desire to avoid further bloodshed and make an end to the atrocities of war, the four allied powers propose to enter forthwith into peace negotiations.

"The propositions which they bring forward for such negotiations and which have for their object a guarantee of the existence of the honor and liberty of evolution for their nations, are, according to their firm belief, an appropriate basis for the establishment of a lasting peace.

"The four allied powers have been obliged to take up arms to defend justice and the liberty of national evolution. The glorious deeds of our armies have in no way altered their purpose. We always maintained the firm belief that our own rights and justified claims in no way control the rights of these nations.

"The spiritual and material progress which were the pride of Europe at the beginning of the twentieth century are threatened with ruin. Germany and her allies, Austria, Hungary, Bulgaria and Turkey, gave proof of their unconquerable strength in this struggle. They gained gigantic advantages over adversaries superior in numbers and war material. Our lines stand unshaken against ever repeated attempts, made by armies.

"The last attack in the Balkans has been rapidly and victoriously overcome. The most recent events have demonstrated that further continuance of the war will not result in breaking the resistance of our

forces and the whole situation with regard to our troops justifies our expectation of further successes.

"If in spite of this offer of peace and reconciliation, the struggle should go on, the four allied powers are resolved to continue to a victorious end, but they disclaim responsibility for this before humanity and history. The imperial government, through the good offices of your excellency, asks the government of (here is inserted the name of the neutral power addressed in each instance) to bring this communication to the knowledge of the government (here are inserted the names of the belligerents).

After reading the note, the chancellor said:
"Gentlemen, in August, 1914, our enemies challenged the superiority of power in the world. Today we raise the question of peace, which is a question of humanity. We await the answer of our enemies with that serenity of mind which is guaranteed to us by our exterior and interior strength and by our clear conscience. If our enemies decline to end the war, if they wish to take upon themselves the world's heavy burden of all these terrors which hereafter will follow, then even in the least and smallest homes, the German heart will burn in sacred wrath against our enemies who are unwilling to stop human slaughter, in order that their plans of conquest and annihilation may continue. In a fateful hour we took a fateful decision. God will be the judge. We can proceed upon our way without fear and unshaken. We are ready for fighting, and we are ready for peace."

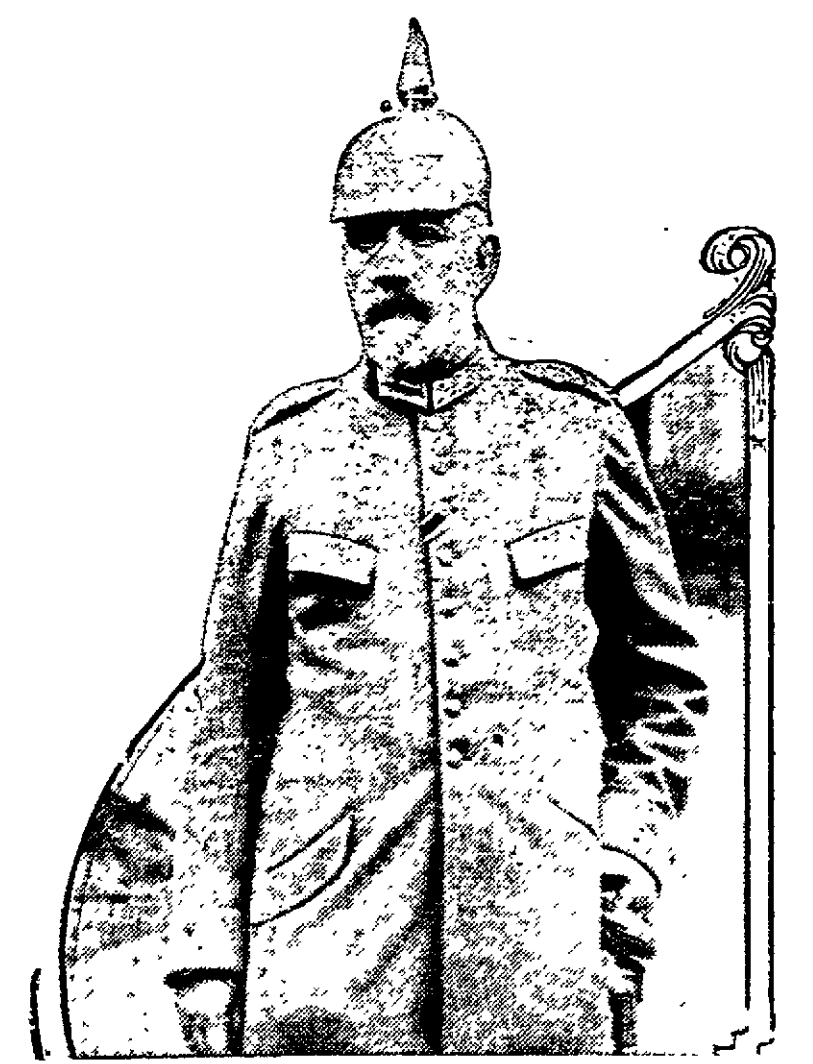

"The empire is not a besieged fortress, as our adversaries imagined but one gigantic and firmly disciplined camp with inexhaustible resources. Not confused by asseverations, we progressed with firm decision, we thus continue our progress always ready to defend ourselves and fight for our nation's existence, for its free future and always ready to stretch our hand for peace.

"His majesty therefore, in complete harmony and in common with our allies, decided to propose to the hostile powers to enter into peace negotiations. This morning I transmitted a note to this effect to all the hostile powers, through the representatives of those powers which are watching over our interests and rights in the hostile states. I asked the representatives of Spain, the United States and Switzerland to forward that note.

"The same procedure has been adopted today in Vienna, Constantinople and Sofia. Other neutral states and his holiness, the pope, have been similarly informed.

The chancellor's speech was listened to by thronged galleries. The royal box was crowded. All the ambassadors and ministers of foreign governments were in the diplomatic box.

Of Grange Delegates Are Bowed as Peace Bulletin Is Read to Them

ANNUAL SESSION OPENS

State Master Taber's Annual Address Presented at Afternoon Session—Brands Proposed Food Embargo As Foolish—Asks More Efficient State Administration

A dramatic incident characterized the opening session of the Ohio State Grange, at 10 o'clock Tuesday morning, and one not on the program. State Master Louis J. Taber of Barnesville had called the meeting to order, and almost the first thing he did was to read an Associated Press telegram that had been sent to the meeting from the Advocate office announcing that Germany and her allies were prepared to negotiate for peace. There was no outburst of applause, but the announcement was received with profound solemnity, and a motion was made that with bowed heads the delegates engage in a few moments of silent prayer that these negotiations would be successful, and that peace would be speedily restored. An absolute silence pervaded the hall as every head was bowed and every heart ascended to the Throne of God's grace in humble supplication for the accomplishment of this desideratum.

The first business transacted was to receive the report of the committee on credentials, which announced that the list of delegates submitted by the secretary was found to be correct in every detail. This was followed by the first roll call, which disclosed the fact that many delegates had not yet arrived.

E. A. Tussing of Franklin county was named as temporary Overseer in place of S. J. Pierce, now in the south for his health.

A recess was taken about 11:40 to allow the committees to meet and formulate their reports which will be submitted at a later session.

These committees with the chairman of each are as follows:

Credentials, D. E. Mills, Carroll county; Auditing, W. G. Vandenberg, Muskingum; Finance, E. Y. Denman, Licking; Agriculture, O. B. Young, Licking; Constitution and By-laws, A. A. Harmon, Ashland; Game and Bird Protection, Clyde E. Brown, Ashland; Co-operation, George W. Montgomery, Hancock; Education, Homer C. Price, Licking; Good of Order, Arthur Oyster, Stark county; Home Economics, Mrs. W. G. Vandenberg, Muskingum; Insurance, R. A. Atwood, Geauga; Juvenile Ranges, Mrs. John Cunningham, Knox; Pure Food, John W. Foltz, Summit; Public Highways, O. W. Snider, Fairfield; Peace, Rev. F. H. Mittendorf, Ottawa; Temperance, N. A. Mealy, Trumbull; Taxation, Reuben Rankin, Fayette; Resolution, John Cunningham, Knox; Special Committee of Markets and Meetings, Homer C. Price of Licking, and John Cunningham of Knox are both on this committee, both having studied this question at home and abroad.

Tuesday Afternoon.
The feature of this afternoon's session was the address of Louis J. Taber of Barnesville, State Master, which was attentively heard and many passages enthusiastically received.

State Master Taber's address to delegates was a masterpiece presentation of the policies and beliefs of the Grange and the questions he discussed showed him to be a deep student of current events. His address in part was as follows:
We meet today in annual session with every county in the State entitled to representation. We meet as the representatives of sixty-five thousand earnest and loyal farmers. But we meet in the larger capacity, as the spokesmen and defenders of the more than one million men and women whose interests are in the fields and farms of Ohio. We meet with the eyes of our members turned toward Newark; but we also meet with all interested, hopefully watching our every action. The mere fact that for forty-five years an organization can meet with representatives coming from every section of the State is sufficient to challenge the attention of this busy, matter-of-fact age, but when this organization finds itself stronger at the end of that long period, during its history, it is indeed significant.

We talk of such achievements as the Interstate Commerce Commission, our Secretary of Agriculture, Rural Delivery, Parcel Post, Postal Savings Banks, Pure Food Legislation, Direct Election of United States Senators and a host of other reforms that the Grange has championed, and had a cardinal part in bringing to fruition, as the crowning work of the Grange. The greater service of our Order has been performed in developing the farmer himself, in carrying out his duties.

Bethmann-Hollweg Makes Announcement To The Reichstag

STOCK MARKET HARD HIT BY PEACE OFFERS

(ASSOCIATED PRESS TELEGRAM)
New York, Dec. 12.—The stock market became immediately unsettled today on the receipt of the news of the Teutonic peace proposals. Munitions and shares of other companies which have profited by the war were most affected. Bethlehem Steel dropping 26 points. United States Steel fell 3 points and other prominent industrials yielded as much.

Trading became feverishly active on the decline and urgent liquidation was evident. Professional traders aided the decline by selling of the more speculative shares.

The selling embraced practically every issue in that class of specialties which have been strongest and most active recently. While the market was not demoralized in the first period of heavy selling support was evident only in the investment issues.

The news from Berlin was preceded by a heavy tone, as Wall street was not altogether unprepared for it, international bankers having received word during the last few days that developments of the highest importance were impending in that quarter.

WHEAT DROPS EIGHT CENTS; CORN 2 CENTS

(ASSOCIATED PRESS TELEGRAM)
Chicago, Dec. 12.—Wheat on the Chicago board of trade in receipt of the news of the proposals for peace of Germany and her allies broke more than eight cents. May wheat sold last night at \$1.75 1-8. Within 15 minutes after the opening today the price touched \$1.66 1-2. The extreme drop was to \$1.66 1-2 for the May delivery, a loss of 8 5-8 cents as compared with yesterday's finish. At this point buyers took hold with vigor, and a rally to \$1.68 1-4 for May ensued.

May corn dropped to 90 1-8, a loss of 2 1-8 compared with closing prices of yesterday. May oats similarly sold off 1 7-8 cents to 54 cents. January lard, the index of the provisions market, after selling at 15.60, advanced to 15.90 on the peace proposals.

After a period of comparative steadiness, the market was again overwhelmed with wave after wave of selling as the day approached an end.

In the demoralization during the last fifteen minutes of the session wheat for May delivery broke to \$1.64, a drop of 11 1-8 a bushel, in 24 hours. December touched \$1.53 1-2, a fall of 11 1-4.

The details of Germany's offer had become generally known, and traders for the most part seemed to think that the chance of a refusal to treat on the part of her opponents was not so likely as an acceptance. The close was wild, 4 7-8 to 10 3-4 under yesterday's finish with May at \$1.65 1-2 to \$1.65 3-4 and July at \$1.42 3-4 to \$1.43.

COTTON ADVANCES.
(ASSOCIATED PRESS TELEGRAM)
New York, Dec. 12.—The announcement of German peace proposals served to stop the decline in the cotton market here this morning, prices advancing from the opening of 1915 for May to 18.50, or about \$3.50 a bale above the low level of yesterday afternoon.

No Intimation of Terms of the Teutonic Powers' Proposal Has Been Made Public, But Diplomats Believe They Will Include Restoration By All Belligerents of Territory Occupied Since Beginning of War Except Poland—Germany Will Retain Alsace-Lorraine and Probably Mesopotamia—Bulgaria to Get Serbia

(ASSOCIATED PRESS TELEGRAM)
Berlin, Dec. 12.—(Sayville wireless.)—Germany and her allies today proposed to enter forthwith into peace negotiation. The propositions which will bring forward are, according to Chancellor von Bethmann-Hollweg, appropriate for the establishment of a lasting peace.

The Austrian, Turkish and Bulgarian governments are making similar proposals. These proposals have been transmitted also to the Vatican. The following announcement was given out today by the semi-official Overseas News Agency:

"The chancellor this morning received one after another the representative of the United States of America, and Spain and Switzerland, that is, of the states protecting German interests in hostile foreign countries. The chancellor transmitted to them a note and asked them to bring it to the knowledge of the hostile governments. The note will be read today in the reichstag by the chancellor.

"In the note the four allied (Central) powers propose to enter forthwith on peace negotiations. The propositions which they bring for such negotiations are, according to their firm belief, appropriate for the establishment for a lasting peace.

"The governments at Vienna, Constantinople and Sofia transmitted identical notes and also communicated with the holy see and all other neutral powers."

ANTE BELLUM STATES RESTORED.

(ASSOCIATED PRESS TELEGRAM)
Washington, Dec. 12.—Advices from Berlin to the German embassy indicate that Germany's peace terms, in general measure propose the restoration of the statu quo before the war with the exception of the establishment of independent kingdoms of Poland and Lithuania.

They are understood to propose the complete restoration of the occupied portions of Belgium and France in return for Germany's captured colonies and to dispose of the Balkan situation because of its extremely complicated nature, in the peace conference.

KAISER SAYS KEEP ON FIGHTING.

(ASSOCIATED PRESS TELEGRAM)
London, Dec. 12.—A Central News dispatch from Amsterdam says it is announced officially in Berlin that Emperor William has notified his commanding generals of Germany's peace offer and has informed them it is still uncertain whether the offer will be accepted.

Until that uncertainty is ended, the message says, they are to fight on.

CHANCELLOR'S SPEECH TO REICHSTAG HEARD BY WHOLE MEMBERSHIP

(ASSOCIATED PRESS TELEGRAM)
Berlin, Dec. 12 (Wireless to Sayville).—Chancellor Von Bethmann-Hollweg's speech is reported by the Overseas News Agency as follows:

"Chancellor Von Bethmann-Hollweg today announced to the reichstag that Germany, together with her allies, conscious of their responsibility before God, before their own nation, before humanity, had proposed this morning to the hostile powers to enter on peace negotiations."

Practically all the members of parliament answered the unexpected summons. The crowded house and thronged galleries listened in attentive silence when the chancellor rose for his speech.

The chancellor first outlined the extraordinary political situation and then, insisting upon achievements of the central powers, made an announcement which possibly may be the turning point in the war, which for more than two years has held the world under its spell. The chancellor said:

"The reichstag had not been adjourned for a long period, but fortunately it was left to the discretion of the president as to the day of the next meeting. This decision was caused by the hope that soon happy events in the field would be recorded, a hope fulfilled quicker, almost, than expected. I shall be brief, for actions speak for themselves."

The chancellor said Rumania had entered the war in order to roll up the German positions in the east and those of Germany's allies. At the same time the grand offensive on the Somme had as its object to pierce the German western front, and the renewed Italian attacks were intended to paralyze Austria-Hungary.

"The situation was serious," the chancellor continued. "But with God's help our troops shaped conditions so as to give security which not only is complete but still more so than ever before. The western front stands. Not only does it stand but in spite of the Rumanian campaign it is fitted out with larger reserves of men and material than it had been formerly. The most effective precautions have been taken against all Italian diversions. And while on the Somme and on the Carso the drum fire resounded while the Russians launched troops against the eastern frontier of Transylvania, Field Marshal Von Hindenburg captured the whole of western Wallachia and the hostile capital of Bucharest, leading with unparalleled genius the troops that in competition with all the allies made possible what hitherto was considered impossible."

"And Hindenburg does not rest. Military operations progress. By strokes of the sword at the same time foundations for our economic needs have been laid. Great stocks of grain, victuals, oil and other goods fell into our hands in Rumania. Their transport has begun. In spite of scarcity we could have lived on our own supplies, but now our safety is beyond question."

"To these great events on land," the chancellor continued, "heroic deeds of equal importance are added by our submarines. The spectre of famine, which our enemies intended to appear before us, now pursues them without mercy. When after the termination of the first year of the war the emperor addressed the nation in a public appeal he said: 'Having witnessed such great events my heart was filled with awe and determination.'"

"Neither our emperor nor our nation ever changed their minds in this respect. Neither have they now. The genius and heroic acts of our leaders have fashioned these facts as firm as iron. If the enemy counted upon the weariness of his enemy, then he was deceived."

HEADS

(Continued from Page 1.)
rying out that first declaration of our Order—that of developing a better manhood and womanhood. We must remember that the achievements of the past emphasize rather than diminish the demand for rural organization. If the Grange was needed fifty years ago, when the large majority of the people were to be found in the country, and when the industries and occupations were but poorly organized, or not at all, the need for the Grange is doubly as great today, when the majority of our population is found in the city and when every industry is organized to a scale never before known. When centralization of wealth and power is the greatest in human history.

If this session can, in some way, bring home to our entire membership and to the farmer without the gates, the significant fact that the prosperity of agriculture, the welfare of the farmer, and we may almost say, the very life of our country, depends on keeping agriculture sufficiently organized to compete and cope with the centralized and organized industries around it.

We meet this year under conditions encouraging and satisfactory. During the past year, four Granges have been reorganized, seven juveniles, eight Pomonas, and sixty-four subordinate Granges have been added to our roll. The secretaries' reports will show 65,695 members in good standing on October 1, making a net gain of about 6,000 for the past year. During the two years past, we have added 147 Granges and made a net gain in membership of 15,800, or over 30%. This gain, at first, seems entirely satisfactory, and as much new blood as we should incorporate in the given time, yet when we remember that there are over a million men and women in the Buckeye State engaged directly and indirectly in agriculture we can get some idea of the immensity of the field for work and can realize, in a measure, the opportunity before us. To reach this unoccupied field should be the goal of every Patron during the coming year.

The Treasurer's report will show \$32,000.00 the most of which is invested in tax-free bonds, bearing a fair rate of interest, and absolutely safe as an investment. While the resources of the State Grange have made a satisfactory increase from year to year, we believe that the time has come when all the proceeds of the Grange, over and above the present surplus, should be invested in building up and strengthening the weak points in the Grange machine.

While the number of Granges demanding immediate attention is not large, yet we have those who are weak in membership, and some that seem weak in Grange spirit; all need strengthening and stimulating. It is much better to waken a Grange before it becomes dormant than a few years later, to try to re-organize or organize anew.

A contributing factor to Grange growth and efficiency of work has been the very generous amount of space given Grange news by the agricultural press. There is a good field for a strictly Grange paper in keeping the membership fully informed as to the progress of the work in State and Nation. In this field the "National Grange Monthly," stands alone, as it is owned and controlled by the National Grange.

As there has been no session of the legislature the past year, we neither have victory nor defeat to report. The vitality affecting the farmers of Ohio. Being represented at the hearings before the Inter-State Commerce Commission, protesting against the increase of the rates for milk and cream; represented before hearing of the State Utilities Commission in favor of decreasing the freight and express rates on shipments in the State; co-operation with the State Dairy Association to drive an unfair milk substitute off the market in Ohio; a representative to the National meeting of Dairy Farmers, held at Washington D. C.

are some of the matters in which the State Grange has assisted the farmers. In short, the State Grange has tried to assist every effort to protect rights, and advance the interests of the farmer.

As the Grange increases in membership, it must also increase in efficiency of all departments of its work. This is especially true of the business side of the Grange. We should be able to make the trade arrangements more satisfactory and more attractive, as the purchasing power of the organization increases.

A few years ago, a resolution was passed, preventing the Business Agent from receiving any commissions; this action of the State Grange has proven a mistake for two reasons. In the first place, little, if any better prices have been secured, as companies are always willing to

MRS. HARRIET DICKSON.
Of Piqua, Lecturer Ohio State Grange, who probably will be re-elected as she has given eminent satisfaction.

give a slight commission to the State Grange in order that all will push the sale of their goods; and second, it is unfair to ask the strangers that do not patronize the co-operative department to support it, for those that do.

We must turn our attention more in the direction of co-operative selling than buying. The idea of allowing someone else to name the conditions, the grade, the price and the date of payment for farm produce is as much out of date, or rather, should be, as the sickle and flail.

The farmer does not believe in strikes unless they are absolutely unavoidable; we believe the principles of arbitration should always be used in settling difficulties between sellers and purchasers, whether it be in the form of capital and labor, or in the form of farm produce and the organized purchasers therefore.

We all recognize that there is something more important in farming than dollars; yet, unless we can make farming more remunerative in the coming years than we have in the past, we will fail to hold the right type of our young manhood and womanhood on the farm.

One of the most foolish and short-sighted measures recently proposed, is an embargo on food stuffs. The farmer is broad-minded and fair—he will not object at all if the needs of America demand it, provided, at the same time, the embargo is placed on every line of manufacture, especially munitions of war. The farmer will take his chances along with the rest, but it is unfair and un-American to deny the farmer markets that others enjoy, and yet force him to buy on a market that is simulated by orders from abroad. An embargo bill on food stuffs would defeat the very purpose for which it was created, by discouraging agricultural production in the future. The Bill is so unfair that it has not a possibility of passing. The farmers demand a complete embargo or none at all.

We hear much these days about this subject by people who, it would appear to the actual producer, know less about it than anything else. The increased cost of food stuffs is but the logical result of natural causes and present day tendencies. With the exception of those articles affected by cold storage, car shortage or crop failure, the increased cost of food stuffs is no greater, in fact, not as great an increase, as can be noted in manufactured articles. The public seems to forget that the shortening of the hours of labor, the demand for larger margins of profit, can have but one result—that of diverting capital and labor from the farm.

The cardinal factors, however, in this problem, are transportation and distribution. We have developed, in America a transportation system that discriminates greatly between long and short haul freight rates, discouraging, in a measure, production near our markets. Still more important, we have neither express nor parcel post systems of much value in direct marketing, to the consuming public.

Our system of distribution is not efficient, and it is expensive. The State of Ohio spends hundreds of thousands of dollars every year in educating boys how to farm, in agriculture extension, and demonstration work; it spends other hundreds of thousands in its experimental stations and extension farms, and thousands in fighting pests and fungi and diseases. It also spends many thousands in inspecting food stuffs, in testing and condemning cattle for tuberculosis, in seeing that honest weight and honest measure is given the consumer.

Yet after spending this vast sum for the production of better crops, and to see that they are pure and healthy for the consumer, it does seem illogical that the State should not spend one cent to bring the producer and consumer of these products in closer touch.

Ohio needs a Commissioner of Markets and Marketing; the department could be added either to the work of the present Department of

Agriculture, or created as a separate bureau. Ohio is getting accustomed to seeing the political complexion at the State House change every two years. The farmer is not asking office, but he does ask for efficient public service, and looks on this change with entire complacency, for each succeeding administration leaves something of permanent value to the progress of the State.

Under our present State Board of Agriculture, the interests of the farmer have been well safe-guarded. Since the institute and extension work have been placed entirely at the University, much of the opportunity for duplication and friction has been eliminated. With State and Federal appropriations supporting it, we believe that our experiment station can best be managed by a separate board, as at present.

Agriculture, in proportion to the number engaged or the amount invested, is by far the most important of the industries of the State. The Grange is right in its contention that farmers should have a large representation on all Boards and Commissions that deal with rural life.

The attitude of the National and State Granges on this question is consistent; both have declared for temperance reform and local option, but convinced of the failure of these agencies to secure all the desired results, each has declared for Prohibition, State and National.

The possibility of bringing the next National Dairy Show to Ohio is of vital importance to every citizen of the State, and especially to our dairy farmers. It is the biggest event of the kind in the world, and to entertain it would be an inspiration and honor to our citizenship. But we should remember that Ohio is worthy of this recognition, as it has given to the world more dairy records than any other state. There seems to be but one thing in the way of the Show coming, and that is a proper building to house it. Our State Fair Grounds are as complete as any in the Nation, with but one exception—we have no coliseum to stage indoors events properly. We believe that this session should pass resolutions asking the Legislature to appropriate funds for this purpose.

The question is often asked, "Why the antagonism between the farmer and the sportsman?" We might answer, "There would be no antagonism if all hunters were real sportsmen." In a state like Ohio, with no public lands, the farmer, naturally and rightfully, feels that there is no public game. However, it is the lawless hunter that is largely responsible for this feeling.

The Hunter's License Law has been a success as far as creating revenue, but has had little effect toward improving the character of men that hunt. Property rights are disregarded, live stock injured and killed, and poultry stolen about as much under this law as before. Our Game Wardens seem to be effective in preventing hunting out of season, but useless toward making the hunter respect the rights of the farmer.

The Sportsman's League of Ohio is now making a great effort to secure a better enforcement of the Game Laws and prevent the destruction of property by hunters. This is a move in the right direction and should have the support of every organized farmer.

We had hoped the makers of shot and shell were so busy sending munitions across the water, that they would give the birds of Ohio a rest. In this, we are disappointed, as already a movement is on foot to secure an open season for quail. We ask that Bob White be classed as a song bird, because of his melody and song, because he is a real friend of the farmers, and because he now has enough enemies without adding man and gun.

Since the organization of the Grange, it has recognized that road improvement and rural progress go hand in hand. We have long advocated Federal aid in road-building and rejoice at the passage of the Shakerd Bill, which appropriates \$2,000,000 for the National Treasury \$2,000,000 for use in Ohio during the next five years. We recommend that the next General Assembly enact legislation providing means and methods of co-operation between the administrative authorities of the State and Nation to conform to recent Federal legislation so as to insure the greatest degree of benefit to our State.

The Cass Highway Law is generally accepted as right in principle, in that it contemplates skilled management in road building and repair and provides plans and methods for co-operation as between the townships, counties and the state in the improvement of all highways. We recommend that a number of corrections of detail be made, because of apparent overlapping of authority and powers. We should stand for the retention of the present county and township levies and the clarifying of the emergency sections of the statutes.

The Grange has ever championed the cause of rural education; our record has been one of consistent progress, both as relates to the country school and our agricultural college. We must not forget that records show that about 95% of the boys and girls that enter our country schools never graduate from college. The first great interest of the Grange, then, must be in favor of the 5% rather than the 95%.

The continued efficiency of our Agricultural College is a matter of satisfaction to all farmers in the State. Just now, however, our college is overfunded and is the best working school in the West. It is also badly in need of a fine engineering building and a new building for the dairy department.

The people of Ohio, by Constitutional decree, have declared for honesty and efficiency in all departments of government through the medium of Civil Service. They recognize that efficiency and economy can only be brought about by the substitution of the Merit System for the Spoils System in the administration of public affairs.

The high cost of meat and wool should convince our friends in town that they should assist in restoring sheep husbandry in Ohio. Let us all co-operate for a sane and workable dog law for Ohio, something like

that in Pennsylvania. We need a law that increases the tax on dogs and provides that only a citizen can own and harbor a dog and that all dogs must be licensed and wear a tag or be destroyed. Such a law will work no hardship to anyone and bring back a useful industry to Ohio.

There is an opportunity just now for the Granges' contention for equal suffrage to bear fruit. Both the political parties of Ohio have declared for equal suffrage, thus taking this subject out of politics. Now let them prove that they mean what they say by granting presidential suffrage to the women of Ohio.

We believe in a strict adherence to the Smith 1% Law and will oppose the abolishment of the State Levy, believing such action would have a crippling effect on road and school development. A strong committee on taxation has been appointed and we trust that their report will point the way toward a more equitable solution of our tax problem.

The election of officers by delegates to the Ohio State Grange will take place on Thursday morning, and politics were seething Tuesday morning. At an early hour the lobby of the Hotel Warden resembled a day when an important political convention was in session. The place was crowded with men and women delegates, and a perfect babel of voices made the scene one of interesting activity. Besides the candidates and their friends who were busy, it early developed that several Ohio cities already were taking steps to secure the 1917 State Grange meeting. Boosters for these cities made themselves heard and an interesting contest may develop.

Youngstown is making a strong bid, while Toledo, Springfield, and Bryan, in Williams county are also anxious to entertain the Grange next year. The contest likely will be among the first three cities, as it is generally believed that the Williams county seat is not large enough to handle the state meeting.

Louis J. Taber likely will be re-elected to a second term as State Master. He is a "live wire," thoroughly conversant with Grange work and an enthusiast.

Licking county will have a candidate for State Overseer in the person of A. W. Caldwell, of Pataskala, now Assistant State Steward. He has served as District Deputy and has organized eight Granges in Licking county besides others in adjoining counties. Mr. Caldwell has a large following. The present Overseer, S. J. Pierce, of Warren, is at present down south in an endeavor to regain his health, and will not be a candidate for re-election.

There will be a lively fight for Secretary from all indications. The present incumbent, Eugene F. Cronz of Ira, Summit county, has served two terms and is a candidate for re-election. His wife is his assistant, and both have been enthusiastic and conscientious in the performance of their duties. This will be seen from the fact that they remodeled their Summit county home in order to make room for the paraphernalia, and records of 44 years' existence of the Ohio Grange.

G. W. Vandenberg, of Tuscarawas county, and E. Tussing, of Canal Winchester, Franklin county, are candidates against Mr. Cronz.

Mrs. Harriet Dickson, of Piqua, State Lecturer, has no opposition as far as could be learned Tuesday.

Monday Night.
Preliminary to the formal opening of the State Grange at 10 o'clock this morning a reception was tendered by Licking county patrons to the delegates and visitors in Newark from different parts of the state.

The meeting was in charge of A. W. Caldwell, of Pataskala, Assistant State Steward and was in every respect a most delightful affair. Old acquaintances were renewed and new ones formed and the evening was thoroughly enjoyed by a large assemblage.

ESTABLISHED IN 1820.

Entered as Second Class Matter March 10, 1882 at the postoffice at Newark, Ohio, under the Act of March 4, 1879.

After Congress has got through regulating high prices, it might tackle the weather and women's fashions.

In spite of the high prices, the meat producers kindly allow the public to buy bones and gristles at figures within reach of the people.

After making some thousands by successful terms in the necessities of life, the speculators will no doubt generously give a few dollars to charity.

It is believed that the farmers will co-operate in the farm-to-table plan by charging the regular retail prices to their customers who wait for delivery by parcel post.

A Motherhood School.

A very generous gift of \$4,000,000 has been made by the widow of the late Senator T. W. Palmer, for the establishment of a "Motherhood School." The idea is to train girls for the functions of wifehood and motherhood, for which so many married women are so utterly unfitted today.

The gift is a noble one, and interesting because it is so far removed from the tendencies of the times. The whole trend today is to make girls independent. They are trained to certain vocations just as if marriage were the last thing they had in view. Their heads may be filled with romance. But the modern girl feels she stands the best chance in the matrimonial market if she can defy the masculine world from her stronghold of economic independence.

Just how the girls will look at such a proposed school is yet to be seen. They may dislike to admit their interest in matrimony by taking courses preparatory thereto. However, if there is any way of fitting them for what after all is their chief business in the world, the community will be the debtor.

A Shortage of Capital.

A few years ago it was commonly said that there was an over supply of capital. Savings and other banks competed for chances to lend their money.

Today there does not seem to be capital enough in the country to float all the good enterprises. In a great many places there is a scarcity of houses for people to live in. But no one seems to have the money to build enough of them. Railroads are unable to get credit for needed equipment and the farming industry is hampered by the high rates on mortgage loans.

What is to become of the increased gains of farmers, food producers and manufacturers; also of the better wages received by so many skilled artisans? Will all this increment be swallowed up by higher cost of living? Will it be paid out for automobiles and other luxuries? Will it go into wild cat speculation, and be gathered in by smooth promoters for investment in impossible schemes? Or will the banks and substantial enterprises get their share, so that railroads can be extended, farms improved, houses built and manufacturing plants be established?

On this depends the answer to the question whether our prosperity is to be permanent or not. If all our new money goes out as fast as it comes in, always being expended for new gratifications or for visionary projects, nothing is added to the productive power of the country.

The results of a spendthrift policy are disastrous both for the individual and the nation. There must be a constant addition to capital to keep up the advance of modern science, increase of population, demands of foreign trade, and to make good the wear and tear of daily use. If these constant additions to capital are not provided, the people cannot be kept at work.

Thus the results of national extravagance cut two ways. They deplete the individual income, and they restrict all productive enterprises and limit employment.

One of Penalties of Mob Law

(Atlanta Constitution.)

The migration of negroes from Georgia to States North and East, and particularly from the southwest section of the State, where the extent of it has been greatest, has led to a well-advised concerted movement to check it for imperative industrial reasons.

Loss of much of the State's best labor is one of the prices Georgia is paying for unchecked mob activity against negroes often charged only with ordinary crime. Current dispatches from Albany, Ga., in the center of the section apparently most affected, and where efforts are being made to stop the exodus by spreading correct information among the negroes, say:

The heaviest migration of negroes has been from those counties in which there have been the worst outbreaks against negroes. It is developed by investigation that where there have been lynchings, the negroes have been most eager to believe what the emigration agents have told them of plots for the removal or extermination of the race. Comparatively few negroes have left Dougherty county, which is considered significant in view of the fact that this is one of the counties in southwest Georgia in which a lynching has never occurred.

These statements are most significant. Mob law such as we have known in Georgia has furnished emigration agents with all the leverage they want; it is a foundation upon which it is easy to build with a well-considered lie or two, and they have not been slow to take advantage of it.

This loss of her best labor is another penalty Georgia is paying for her indifference and inactivity in suppressing mob law. It is one of many, but a serious one. In fact, so serious is it that the General Assembly has several times legislated against emigration agents and put heavy license taxes upon them.

Still It Is War.

(Ohio State Journal.)

Peace in Europe today seems farther off than it did two years ago. The allies are making no progress, except what may be discerned in the silent dissolution of things. It is plain that neither side wants peace at present for in the logic of the situation the real issue between the contending forces does not suggest a definite solution. One or the other must be a radical idea affecting the civilization of the world that separates the contestants. There is a universal feeling that that must be fought out. The situation is cruel and bloody. There is no telling when it will end, but every month and year of the conflict impresses the world with the idea that it must be the last war, a consummation that is a part of a very practical conclusion—an agreement that there will be an international understanding that will place humanity under the sway of the spirit of peace, where it might have been years ago if prejudice, hate and selfishness had not crowded it out.

Spirit of the Press

Tarnowski.

It is possible that the refusal of Great Britain to grant a safe conduct for Count Tarnowski may result in the despatch of an American vessel to bring the ambassador. It would be necessary for such a vessel to set at naught the entente blockade of the Central Powers. To permit it to pass would be contrary to the rules of blockade, but to molest it would be likely to lead to serious difficulties with the United States. From any viewpoint, it would be far preferable for the British government to permit the passage of Tarnowski on a neutral ship and to avoid even the appearance of pettiness and arrogance.—Cleveland Plain Dealer.

Prices of Food.

It would not be in accord with fact to say that speculation is responsible for the advance in the cost of wheat, or of other food supplies, in its entirety, but it is a fact, discreditable to the boasted capacity of government in this country, that a considerable percentage of the increased cost is due to the fact that this necessary sustenance of the nation is in large part being used as stakes in a betting ring and is kept out of the normal channels of supply and distribution.—Philadelphia Bulletin.

When your kidneys are weak and torpid they do not properly perform their functions, your back aches and you do not feel like doing much of anything. You are likely to be dependent and to borrow trouble, just as if you hadn't enough already. Don't be a victim any longer.

The old reliable medicine, Hood's Sarsaparilla, gives strength and tone to the kidneys and builds up the whole system.

Hood's Sarsaparilla is a peculiar combination of roots, barks and herbs. No other medicine acts like it, because no other medicine has the same formula or ingredients. Accept no substitute, but insist on having Hood's, and get it today.—Adv.

Mother-Made, Quick Acting Cough Syrup

Should be Kept Handy in Every Home—Easily Prepared and Costs Little.

Mother, you'll never know what you are missing until you make up this inexpensive, quick-acting cough syrup and try it. Children love its pleasant taste and nothing else will loosen a cough or chest cold and heal the inflamed or swollen throat membranes with such ease and promptness. It's equally as good for grown-ups as for children.

This splendid cough syrup is made by pouring 2 1/2 ounces of Pinex (50 cents worth), into a pint bottle and filling the bottle with plain granulated sugar syrup. This saves you a full pint—a family supply—of much better cough remedy than you could buy ready-made for \$2.50—a clear saving of \$2.

The moment it touches the inflamed, cold-congested membranes of the throat and air passages, the healing begins, the phlegm loosens, soreness leaves, cough spasms lessen and soon disappear altogether, thus ending a cough quicker than you ever thought possible. Hoarseness and ordinary coughs are conquered by it in 24 hours or less. Excellent for bronchitis, whooping cough, spasmodic croup, bronchial asthma or winter coughs.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with guaiaicol and is famous the world over for its quick healing effect on the membranes. Ask your druggist for "2 1/2 ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

The Review club, which was entertained on Saturday by Mrs. T. M. Edmiston at her home on Hudson avenue was one of more than usual interest. The program, "The Orchestra," given with illustrations by Mrs. C. E. White of Granville, was most instructive and interesting, and a fine preparation for the fuller enjoyment of the symphony orchestra it will be Newark's good fortune to hear this winter. Mrs. White went home laden with compliments and roses, and Mrs. Edmiston was certainly appreciated for arranging so fine an entertainment. The afternoon closed with a social hour and delicious refreshments. Leaflets giving a list of the instruments in a well balanced orchestra with an explanation of the interpretations of each instrument, was enlightening to many of those who heard Mrs. White's talk.

On Thursday, December 7th, Mrs. George Willard was hostess to the Unity Embroidery club at her home in North street, Granville. The rooms were attractive in holiday attire and with the Christmas box having arrived the holiday spirit prevailed. After the business meeting and the distribution of the gifts the hostess served a delicious luncheon to the following: Mrs. Ed Jones, Mrs. Chas. Richards, Mrs. Howard Butler, Mrs. William Owens, Mrs. E. L. Jones, Mrs. John Brooks, Mrs. Arthur Griffith, Mrs. Cary Jones, Mrs. Dave Davis, Mrs. Marion Brooks, Mrs. Frank Hollar, Mrs. Titus Hankinson, and Mrs. Frank Brooks.

The high scores were won by Misses Anna Stare and Stella Mold.

The Nullus Secundus club met at the home of Miss Jessie Simpson in Linden avenue on Friday evening. The hours were pleasantly spent in music and games. Dainty refreshments were served and the members left at a late hour after having planned a Christmas banquet.

Mrs. Howard Horn was hostess to the Elite Croquet club on Thursday afternoon at her home in Allen street. The business of the club was dispensed with owing to the absence of the officers due to sickness. The afternoon sped rapidly with crocheting. Two contests were indulged in. Mrs. Richard Ingram and Miss Marie Trickey being the lucky recipients of the prizes. An appetizing luncheon was served the members and following guests: Mrs. Frank Anderson and Mrs. Rambow.

The next meeting will be with Mrs. Henry Froelich in Penney avenue.

The Happy Twelve held their bi-weekly meeting at the home of Mr. Lester Long in Wing street on Thursday evening. After a business meeting during which Mr. Carl Swern was elected business manager, the evening was spent in the usual way. At a late hour a delicious repast was served the following:

Milady's Boudoir

The most celebrated nerve specialist in the world cannot restore overtaxed nerves without some material assistance from his patient. He may prescribe a regimen calculated to relieve the high tension, by building up the general health and eliminating worry, excitement and undue haste, but the sufferer herself must make an effort independent of medical aid.

Of first assistance in getting control of the wayward nerves is will power. Not a weak, anemic brand of this force, but a strong efficient one that makes for unflinching perseverance.

Many people possess will power that exercises remarkably well in some directions, especially when it concerns their own desires, but when the will operates directly upon themselves, as in the case of compelling the nerves to "behave" it relaxes and becomes more of an enemy than a friend. Every time that the will power is put into active operations and quells nervous squalls, the patient scores one in checkmating a further explosion of frenzied nerves. The monotonous grind of daily work, whether it be directed in the home or office should be broken by periods of physical exercise and mental exhilaration. The ideal day is separated into three parts: Eight hours for sleep, eight hours for work and the rest for play.

Staying at home with but few outside interests dulls the brain and makes one less companionable for people who enjoy a certain amount of pleasure derived from outside sources.

Reading should be undertaken as a means of education and as a diversion, especially those books and articles that tend to give the reader a higher broader viewpoint of things. A humorous story makes an excellent tonic for jangling nerves.

The best bottles for a bottle baby are those that are round and cylindrical and have a narrow neck for the attachment of the nipple.

The one important requirement is that they have no corners on the inside, being rounded both at the bottom and at the top where the neck begins. This shape of the inside of the bottle enables it to be cleansed thoroughly.

It is best to get as many bottles as there are feedings in twenty four hours also buy a wire bottle-rack to hold them when the food is made up for the day.

NEW HYMN BOOK. JUST OFF PRESS

Rev. B. M. O'Boylan has just completed the compilation of "The Peoples Hymn Book," for use in the church and school of St. Francis de Sales Parish. He was assisted in the work by the Sisters of St. Dominic and the will be ready for distribution in a week or two. It is a hymnal of 64 pages, and contains about 75 hymns covering the range from solemn adoration of God, to joyful Christmas carols.

The compiler in a foreward states that he believes in more concerted congregational singing and that his aim in selecting the hymns for the collection has been to choose those which would "supply the people of the parish with hymns easily learned by heart to be sung by them on suitable occasions at home or in the company of friends, but especially at evening devotions and at low mass." Father O'Boylan is a great believer in melody as an adjunct to the heartfelt appreciation of the beautiful sentiments contained in many of the great hymns of the church, which are elegant in diction and rhythm, and has followed this conviction in compiling the book, which undoubtedly will become popular in the parish for which it is primarily intended, although other parishes may decide to adopt it.

AUDITORIUM.

Mme. Matzenauer.

With a father an opera conductor and her mother an operatic soprano, and the child to become Margarete Matzenauer, one of the greatest of the prima donnas of the Metropolitan Opera Company, Galt's theory about hereditary genius has again proven itself true.

For in the words of Mme. Matzenauer, who will sing here at the Auditorium theatre, Dec. 12, on the Music Club's courses she cannot remember the time when she could not sing. At the time when other children are being Montessoried and Froebelized by fond mothers, little Margarete was humming arias and folk songs with the stars and other singers, who appeared in the opera house with which her father and mother were connected. As a child she watched her mother from the wings, and from that time on she has gradually fulfilled the dreams of those times.

At twenty Margarete Matzenauer had made her debut as Puck in Oberon at Strassburg. Three years later she received a call to the Court Theatre in Munich, a signal honor. For seven years the leading contralto at the Wagner Festivals in the Prince Regent Theatre in Munich, and during that time guest singer in the leading cities of Europe, she came to America at the request of the Metropolitan Opera company, and made her debut here in 1911. Then South America, always willing to spend its pesos for the best, secured her at the Teatro Colon in Buenos Ayres for one season.

And there she met and married the Italian tenor, Edoardo Ferrari Fontana, who has since won all that come to any singer at the Metropolitan Opera House and in Boston, and was but lately decorated with the order of the Commandatore by the Italian king. A baby, Adrienne, the first grand opera baby, has been the result of the union.

And should she too inherit the combined genius of her two parents there will be produced such a singer as the world has seldom known.

Eagles' Minstrel.

There are still many good seats left for the Eagles minstrels which will appear at the Auditorium theatre.

comb, the Neil O'Brien of amateur minstrelsy. The Newark boy is fast achieving fame as a black-faced comedian and is equal to many of the professionals who visit this city. He will sing a comic ballad and his jokes will all be crisp and fresh. Other comedians will be George Rohan, the well known vocalist of East Newark, with a brand new line of jokes and song hits, George Winters and Joe Rohan, who can shake their feet and warble like a macking bird.

The ballet singers are Fritz Drake, Stanley Shaw, Irvin Porter, Frank Strear and Albert Kain, and they will render a number of the latest song hits. These gentlemen were selected from among the city's best soloists and all are bound to make big hits.

The first part will represent a cabaret of a Palm Beach hotel and there will be well known, well girls, waiters, coachmen, guests and others. The triple quartette will assist in the entertainment and is composed of James Richter, Fritz Drake, Frank Strear, H. Vogel, W. Vogel, R. W. Congdon, F. C. Morris, S. Shaw, Irvin Porter, Albert Kain and H. Backenstos.

You'll miss it if you miss this year's Eagle show.

The Parisian Flirts.

"The Parisian Flirts," headed by Charles Robinson, will appear at the Auditorium theatre next Monday. The press and the public have been unanimous in their praise of this worthy attraction, Chas. Robinson, himself, has gained a world-wide reputation in the burlesque field, for selecting the best available artists procurable. He has gone far beyond the ordinary by engaging such well-known stars and vaudeville entertainers as the Harmonist Four, May Bernhardt, and Mabel Lee, Gertrude Sommers, prima donna, Freda Lehr, Charles E. Edwards, Harry S. LeVan, Al Turpee and Willie Mack. Each of these artists have been noted for their clever work and originalities.

The production and scenic effects are worthy of any \$2.00 attraction. The chorus are young vivacious, and as fine a gathering of dolls as have been seen here this season. Seats ready Friday.

"What One Girl Said."

"I wonder that so many girls make the fatal mistake of going to New York," said a young lady to her escort as the curtain fell on the second act of the most talked of drama of the year, "One Girl's Experience." "Perhaps I can answer that," observed her companion, "youth always has hope and hope brings with it a boyant spirit of determination and fearlessness intoxicating the senses to the reality of danger in the thought that danger exists only for the other girl."

Lucy, the pretty working girl, heroine of Eugene Kirby's dramatization of "One Girl's Experience," which comes to the Auditorium soon, had never dreamed in these days of

ALHAMBRA.

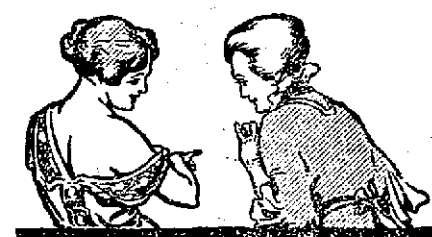

Cleo Ridgley, the clever young Lasky star, who will be seen at the Alhambra tonight, with Wallace Reid in the Jesse L. Lasky production of "The Yellow Pawn," has purchased for herself a new home in the hills near Hollywood and is going to be a true farmer. She has nearly a hundred hens on the place and disposes of the fresh eggs to the members of the Lasky company at the prevailing market prices. It is safe to say that if the present high price of this commodity continues to prevail, Miss Ridgley will soon be purchasing the Standard Oil Company from John D.

The cast of "The Jacobean House" the fourth episode of C. N. and A. M. Williams' story, "The Scarlet Runner," which Vitaphone releases in twelve episodes with Earle Williams as the star has an unusual cast. Supporting Mr. Williams are found Zena Keefe, Walter McGrail, Josephine Earle and Harold Foshay. This series will be shown at Alhambra theatre every Wednesday and Thursday.

GEM.

The arrival of "The Love Girl" at the Gem theatre Wednesday will bring one of the brightest stars of Bluebird photoplays to interpret the leading role. Ella Hall shared honors with Robert Leonard in an earlier Bluebird, "The Crippled Hand," but in "The Love Girl" she will negotiate the stellar honors to the delight of thousands who have admired her work in previous service to the screen.

Harry Depp is likewise sure to win admiration for his work in association with Miss Hall in the several interesting and exciting scenes in which they jointly participate. There is a novel subject for photoplaying introduced during the progress of "The Love Girl" when Hindu mystics serve to well-nigh upset the calculations of everybody concerned. Sensationalism abounds for those who enjoy excitement, but these features by no means predominate. The most vital interest in the feature is likely to accrue from the perfectly human, natural and appealing work of Miss Hall and Master Bepp in presenting the role of two splendidly equipped children—healthful, clean-minded, playful, and yet just a little bit mischievous.

Relieves Serious Case of Chronic Constipation

Dr. Caldwell's Syrup Pepsin Corrects Condition That Seemed Hopeless.

After suffering from chronic constipation until she was so run down she was unable to do any kind of work, Miss H. A. Frees, 209 Adams St., Dayton, Ohio, obtained a bottle of Dr. Caldwell's Syrup Pepsin and used it with such gratifying results that she continued the treatment and has written to Dr. Caldwell that her condition is again normal, and that she wants to recommend Syrup Pepsin to everyone who suffers with constipation.

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin, gentle in its action and free from gripping or other pain or discomfort. It contains no opiate or narcotic drug, and while acting readily on the most stubborn case of inactive bowels is absolutely safe for the tiniest babe, so that it is the ideal family laxative and should be kept on hand in every household for use when needed.

Dr. Caldwell's Syrup Pepsin costs only fifty cents a bottle and is sold in drug stores everywhere. To avoid imitations and ineffective substitutes be sure you get Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. R. Caldwell, 455 Washington St., Monticello, Illinois.

Washing Won't Rid Head Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

ASTHMA

Simple Harmless Remedy Brings Quick Relief.

Many cases of immediate relief and rapid recovery from Asthma of long standing and other diseases of throat and lungs are being credited to a discovery made by Dr. Eugene Howard of New York City. Dr. Howard's prescription, which is totally different from all usual methods of treatment for these afflictions, is called "Ease and comes in the form of a tablet which the patient allows to dissolve slowly in the mouth. Its curative action causes this miracle with the least effort and every crumb of the tablet at the membranes, release the most free contraction of the bronchial tubes, open up the air passages and regulate the spasmodic lung action. These tablets, though pleasant to the taste, are so powerful and rapid in their action that many users who for years were obliged to sit up in bed gasping for breath and unable to sleep resort to it at once. It put a single Oxidase tablet in their mouth when going to bed and can lie down and breathe easily and tranquilly and get a good night's restful sleep. W. A. Brown, 1235 Broadway, and many other local druggists also handle Oxidase tablets. If you are in doubt, guarantee of money back if it does not give immediate relief. (Advertisement.)

FARMERS TESTIFY IN INQUIRY INTO LIVING COSTS.

(Associated Press Telegram) Chicago, Dec. 12.—One hundred farmers from Wisconsin, Indiana and Illinois and 500 grocers of Chicago will be summoned by the government in the grand jury's inquiry into the high cost of living, according to United States District Attorney C. F. Clyne.

This determination of the district attorney followed expressions by the jurors of a desire to investigate thoroughly every phase of the food question. Heads of the grocery departments of various big stores were witnesses today.

60,000 CHILDREN COLLECT PAPER TO RELIEVE SHORTAGE.

(Associated Press Telegram) Philadelphia, Dec. 12.—More than 60,000 pupils of the parochial schools in this city have been enrolled in the campaign to collect and save every available piece of paper in an effort to relieve the shortage. It was announced today. The campaign was started by Rev. John E. Flood, superintendent of the parochial schools, and plans are under way to enlist the help of the 250,000 public school children.

Leaders of the movement pointed out that in addition to reducing the shortage of paper the children would realize a considerable sum of money for the improvement of the play centers throughout the city.

GOVERNMENT URGES ECONOMY IN FIGHT AGAINST HIGH PRICES.

(Associated Press Telegram) Washington, Dec. 12.—Government officials made it plain today that while they are conducting inquiries into the high cost of living and planning grand jury action against any who have conspired to maintain prices, the principal remedies must come through economies and cooperation of the public. They recommended that persons buy as little foodstuffs as possible and seek cheap substitutes for high priced articles in many cases. Better methods of transporting necessities of living to consumers and increased production by farmers were other direct remedies suggested.

U. S. TRANSPORT AGROUND OFF JERSEY COAST.

(Associated Press Telegram) New York, Dec. 12.—The United States army transport Sumner, bound from Colon to this port with army officers, troops and civilian passengers, is hard aground on the New Jersey coast off Barnegat. Two coast guard cutters under forced draught are rushing to the relief of the transport, which sent out calls for help after she struck in a heavy fog last night.

The Seneca, which was off the eastern end of Long Island when directed to go to the aid of the Sumner, reported that she would probably reach Barnegat about noon today. At 2:30 this morning the Mohawk, which was at anchor off Staten Island, left for the scene and it is believed she will reach there before the Seneca.

The transports normal complement is eleven officers and a crew of 118, but she has been carrying many soldiers stationed at Panama to and from the Isthmus. The last time she reached this port she carried 185 passengers.

A wireless dispatch received here from the Sumner at 7 o'clock this morning states the vessel was beginning to pound with the rising tide. The sea, however, was smooth and a light northwest wind blowing. The situation was considered favorable. The dispatch reads:

"Rain at present. Sea smooth. Light ground swell. Wind light, northwest, thick fog. Ship beginning to pound as tide is making up. Boat from life saving station standing by to pass line to coast guard cutter Seneca and Mohawk."

A GOOD WINTER HABIT

Many people dread winter because the sudden climatic changes bring colds, grippe, rheumatism, tonsillitis or bronchitis. But thousands of well-informed men and women today avoid much sickness for themselves and their children by taking a few bottles of Scott's Emulsion to make richer blood, fortify the membranes of the throat and chest and create body warmth to resist sickness. Soldiers at war receive cod liver oil; it will also strengthen you.

CONSTANTINE PLAYS FOR TIME; SUPPLIES SHORT.

(Associated Press Telegram) London, Dec. 12, 7:15 a. m.—An Amsterdam dispatch to the Times says that Count Revendow, the well known German military critic says that King Constantine now only desires to gain time to enable the Germans to concentrate a relieving force. The count is quoted as adding that it is uncertain if the Greek supplies will last long enough to permit the Germans to come to their assistance.

Goodbye Wrinkles! Bad Complexions. you must go!

NOUVELLE BEAUTE POUR TOUTES LES DAMES

Remarkable discovery of skin osmosis promises to make wrinkled, hollow-cheeked, aged looking women astonishingly beautiful, youthful and charming.

FRANCE'S GREAT PRIZE BEAUTY TELL—

How you can almost immediately suppress the appearance of smaller wrinkles and marks of age and make yourself look from 5 to 15 years younger in 30 days' time. How to banish every complexion blemish in three nights in many instances.

A thousand times I have heard rich women say: "Oh! youth is so wonderful and lovely. I would give everything I possess for youth and beauty again!" No woman with the slightest spark of pride or ambition in her wants to be laid on the shelf, aged, careworn, wrinkled and forgotten so that men wish to avoid her at every dance and dinner party, and women themselves would like to invite someone who looks younger to brighten up the occasion. Yet there is no longer any reason why the average woman should look so old and plain even if she is old.

Since the remarkable discovery of skin osmosis almost any woman can obtain most astonishing new beauty and a most surprising youthful appearance even though she is 40, or 50 or more years of age. The Countess de Chevalance who at 70 years of age, possesses a marvelously soft, smooth, velvet-like skin and an almost girl-like complexion without a wrinkle in sight, told the writer personally in Paris that she owed it all to the discovery of skin osmosis. With this marvelous discovery every complexion blemish can be banished in three nights in many instances, and you can awaken in the morning with a beautiful rose-colored complexion fresh as a daisy.

I have known dozens of hollow-cheeked, wrinkled, aged-looking women, who had given up all hope of ever looking beautiful and youthful again, to "come back" and again become most beautiful, youthful and fascinating in from two to three weeks' time by this wonderful, simple method. No matter what your age or what you have tried unsuccessfully, skin osmosis will positively bring you new beauty and youth. Merely wash your face in warm water at night and rub in a teaspoonful or two of any of the roseated cream which you can obtain from your druggist. In the morning wash the face with cold water and rub in more cream.

DIXIE COAL MAKES MORE HEAT

Granville

(Special to Advocate.)

Granville, Ohio, December 12.—Monday afternoon the South American "Travelers" reached Paraguay, that small republic between Brazil and Argentina which, in point of area, conformation and size of its two rivers, somewhat resembles our own state of Illinois. Under the caption "The Land of Women, Tea and Oranges," Mrs. Daniel Rogers spoke in an interesting way of many aspects of the country; of its dignity in possessing for its capital the oldest city in the two Americas Asuncion, founded in 1536. The nation is far from prosperous, and is badly in debt.

Mrs. Frank Carney told the story of "Maldonado," the woman of the "evil gift," in a charming manner. The "Wonders of the Parana," were given full scope by Mrs. Mary N. Jones, who described the Rio de La Plata river system as the greatest in the world, and the Parana, a continuation of the Plata, as second only to the Amazon. The Falls of Iguazu, one of the world's wonders, as well as numerous other falls of the region, were described. Mrs. William E. Hopkins in "The Mystery of El Grau Chaco," the unexplored region which has claimed so many lives, treated of the fusion of races, in South America. One more meeting will be held before the holidays.

Plans are about completed for the annual presentation of Handel's "Messiah," which will be sung by the Engwerson chorus on Sunday afternoon, December 17, assisted by the Denison orchestra, under the direction of Prof. Karl H. Eschman, of the conservatory. The orchestra is to be augmented by Columbus and Newark players, and in addition to the soloists already announced, there will be a contralto from Columbus, Mrs. Marion Rose Johnson will sing the soprano roles; Mrs. Corinne Lockman the contralto; Mr. J. W. Soule the tenor and Mr. Paul Curtis the bass.

The Baptist church has been none too large heretofore for the crowds usually attending this magnificent Christmas offering. The performance begins at 3 o'clock. The invitation is general.

The girls of Shepardson college, realizing that very little time will be left them after school closes on the 23d, in which to make their Christmas preparations, have arranged for a bazaar to be conducted under the auspices of the Y. W. C. A. on Saturday, Dec. 16 in Doane gymnasium.

Miss Helen Robinson, a Denison girl, who is one of the Student Volunteers, and exceedingly interested in South America, gave an illustrated talk in Burton Hall, Monday evening in which she delightfully brought out the characteristics of Chili, Argentina, Uruguay, and Buenos Aires by means of lantern slides.

A Single Application Banishes Every Hair

(The Modern Beauty.)

Here is how any woman can easily and quickly remove objectionable, hairy growths without possible injury to the skin: Make a paste with some powdered delatone and water, apply to hairy surface and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. This is a painless, inexpensive method and, excepting where the growth is unusually thick, a single application is enough. You should, however, be careful to get genuine delatone. —Advertisement.

DUTCH SHIPS TO BE HELD FOR GRAIN CARGOES.

(Associated Press Telegram.)

London, Dec. 12.—An Amsterdam dispatch to the Times quotes the Maasbode as saying that immediately after it was known that David Lloyd George had become British premier a special meeting of the Dutch cabinet was held. After this meeting the Maasbode said, telegrams were sent to all Dutch shipping agents in America instructing them to reserve all available tonnage for government grain and cancel all arrangements for other freights.

FRENCH DEPUTIES OPPOSE PLAN TO REDUCE CABINET.

(Associated Press Telegram.)

Paris, Dec. 12.—Premier Briand speaking to a group of reporters last night, said:

"There is nothing absolutely positive as yet but you can announce that the new government will in all probability appear in the chamber of deputies Wednesday."

Some of the deputies are not satisfied with the plans of a concentrated ministry and desire to condense parliament. Deputy Georges Bonnetous has introduced a bill for the creation of a parliamentary committee of national defense which will continue for the duration of the war. This committee would consist of thirty delegates elected by the deputies and forty elected by the senate. The committee would meet weekly to consider information relative to the military diplomatic and economic conduct of the war as communicated by the government.

The chamber and the senate would hold a brief session not more than once a month in which to transact necessary business and ratify the decisions of the committee.

VAR-NE-SIS HELPED NEW HAVEN MAN

Pain of Rheumatic Joints Responded After Other Remedies Failed.

Wm. E. Goss, of 104 Olive street, New Haven, Conn., is enthusiastic about Var-ne-sis. He said:

"I suffered from rheumatism of the joints for five years. I was in constant pain most of the time and was unable to sleep or find a comfortable position. My hands and fingers were stiff and sore. My knees were very stiff and it remained quiet only a length of time. I had great difficulty in going up or down stairs. My legs would cramp and swell."

Nothing in the form of medicine seemed to help me in spite of going before a clinic for treatment.

Four months after taking Var-ne-sis I was a well man without a pain or an ache. I am recommending Var-ne-sis to all sufferers and cannot praise it too highly.

For All Complexion Ills

If the skin be colorless, sallow, muddy, over-red, blotchy, chapped or freckled nothing will so surely overcome the condition as ordinary mercolized wax. It literally takes off a bad complexion—absorbs the dead and near-dead particles of surface skin, gently, gradually, causing no inconvenience at all. A new complexion is then in evidence, clear, smooth, delicately soft and beautiful. One ounce of this wax, procurable at any drug-store, will rejuvenate even the worst complexion. It is used like cold cream. —Advertisement.

PRESIDENT WILL VETO LITERACY TEST FOR ALIENS.

(Associated Press Telegram.)

Washington, Dec. 12.—Friends of a literacy test for aliens arriving in the United States, one of the principal provisions in the immigration bill now under discussion in the senate, received information today that President Wilson would veto the measure if it comes to him with that feature incorporated. Some of them, however, were anxious to press the bill with its literacy test to a final conclusion despite the prospect of a presidential veto.

President Wilson already has vetoed immigration legislation because it contained the literacy test.

DETECTIVES AID RAILROADS TO GET SUPPLY OF COAL.

(Associated Press Telegram.)

Charleston, W. Va., Dec. 12.—It has become known here that detectives have been stationed by railroad companies and other large coal consumers at nearly every coal tippie in this district for the purpose of checking up the shipments of operators, who, it is claimed, are behind on their orders because of car shortage. The detectives, it is said, will see that the operators carry out their agreements as far as possible.

1914 PRODUCTION.

Washington, Dec. 12.—The country's manufacturing industries in 1914 turned out products valued at more than \$24,000,000,000 and employed eight million persons. In giving out these figures today the census bureau announced that investigations planned for the coming year will cover transportation by water, religious bodies, and marriage and divorce.

THE NEW KING COMPANY

WEST SIDE OF THE SQUARE THE HOME OF GOOD SHOES

PRINCIPALS ARE READY FOR THEIR BIG FUSS TONIGHT

Scenery is Set for Bowser-Reed Grudge Bout at Music Hall—Large Crowd Expected.

Tonight at the Music Hall, somewhere between the hour of 8 and 9 o'clock, several hundred wrestling fans in the city of Newark, will, after a three months' wait, have the opportunity of seeing Paul Bowser, world's middleweight wrestling champion, and Ed Reed, challenger, step on the mat for a finish bout.

And if present dope does not go wrong, the match will be one slam bang affair from start to finish. Reed and the local man bear little love for each other, so the former doesn't sidestep the issue at the last moment, the argument will be settled. Bowser several weeks ago at the Auditorium called Reed's hand when he agreed to throw him in 15 minutes or forfeit \$25 to the City Hospital. But the man who claims Akron as his home, remained in his chair while the crowd howled itself hoarse for him to take Bowser on. Reed's alibi was that he was not in condition, although he was supposed to have been training for three weeks.

A couple of weeks later, Bowser agreed to give the man a bout providing he beat Charles Metro in a finish bout. A large crowd turned out to see Reed and the Turk perform. But it was disappointed. At the last minute, Reed left the theatre and could not be induced to go through the match.

But despite all this side-stepping on the part of Reed he remained in the city, continuing to heckle the champion for a bout. Finally Bowser agreed to take him on, so Reed's friends, who also were clamoring for a bout, could see their man in action. Articles were signed and a forfeit of \$100 posted for appearance.

The curtain raiser will be staged at 8:15 and the semi-final about 8:30 o'clock. The main go will probably be on about 9 o'clock, providing Reed shows at the Music Hall. Bowser is determined to end the bout just as quickly as possible, as the affair is not an exhibition, but a plain settlement of a long-standing grudge.

It was learned last night that an extra attraction might be staged between two well-known athletes, who for many weeks have been itching to tear each other upon the mat. If the bout materializes, the fans will see Justice Fletcher S. Scott and Ertle Treiner endeavoring to tie the other in knots.

NEW YORK PRESS LAVISH IN PRAISE OF GREAT SOLOIST

There is no question about the verdict of the great, enthusiastic New York public which greeted the famous prima donna, Mme. Matzenauer, at her Carnegie Hall recital, November 22. The wealth of floral offerings more than covered the piano, were banked high on the stage and partly obscured the artist, her accompanist and her piano from the public view, and in some of the groups every song had to be repeated. Nor was this all. At the end of the program, in spite of the long aria from "Samson and Delilah," which Mme. Matzenauer graciously added, recalls were so numerous as to encroach upon the time set for her departure by special train for Cleveland.

The newspaper critics were lavish in their praise. It should be balm to our local calamity howlers who decry the "lost art of singing" and constantly exhumed the past performance of a quarter of a century ago, to know that in 1911, the present optimistic young critics will be grey-heads mourning the vanishing of the "eloquent dramatic art" of Caruso, the "deep and sincere forcefulness" of Matzenauer's singing, and the "noble tonal volume and utter emotionalism" of the unforgettable Amato.

In Chicago, Philadelphia, Boston, New York, and other large cities it is customary at the conclusion of a performance for an artist to be given a genuine ovation, when the audience crowds about the stage still calling for encores while the gallery expresses its delight with exclamations of "Bravo! Bravo!" The large audience which assembled in our own beautiful Auditorium Theatre at 8:15 this evening to pay homage to the great star, was unreserved in their outward demonstration of their appreciation of her lovely voice. Let Newark and its region be indelibly and pleasantly impressed upon the memory of Mrs. Matzenauer.

NEWARK BOXER MAKES BIG HIT IN INITIAL BOUT

Young Gardner Registers K. O. Over Kid Burgundy in First Round—Downey Defeats Harvey.

Newark fight fans who attended the Bryan Downey-Johnny Harvey 12 round boxing contest, before the Queensbury club at the Columbus Coliseum last night, saw Young Gardner, of this city, stow away Kid Burgundy, of Columbus, in the first round of a scheduled four round preliminary.

The Newark boy K. O. his man with a powerful right across to the jaw before the bout had gone thirty seconds. It was the quickest knockout ever witnessed in a Columbus arena.

Gardner made a great hit with the Capital City fans by his work and will be seen again in Columbus in the future. Tomorrow night he is slated to go six rounds with a tough boy at Portsmouth, but Columbus promoters who have seen both boys in action, say the local lad should cop another K. O.

"Gardner uncorked a kick that many a champion might be proud of," the Ohio State Journal said this morning.

With a little more training and experience, the local lad, who has assumed the cognomen of "Young Gardner," should handle with ease any 135 pounder in the game. He is tall, rangy, possesses a hefty wallop and can assimilate a great deal of punishment.

In the main go, Downey won from Harvey all the way except in one round, when the "Wop" got to the harp with a number of jabs, but none were of the damaging variety.

Several times during the bout, Downey had Harvey in a bad way. Bryan put his opponent down in the first round for the count of seven and, again in the fifth, he floored the New York boy for the count of eight.

Downey piled up such a lead in the early rounds that Harvey could only have won by a knockout when he got under way along toward the end of the bout. The winner used a left jab and right hook and right uppercut to great advantage and hit the New Yorker almost at will. He rocked Harvey's head many times with stiff left jabs and came right back with a right hook or right uppercut that made Johnny drive to cover.

In only one round did Harvey have a real lead over the Columbus boy, and this was the ninth. Harvey caught Bryan as he came out of the corner with a stiff right to the stomach and followed with a right hook to the jaw. Downey rushed Harvey through the ropes and held him back of the head to keep him from falling out of the ring. As he did so Harvey peppered him with rights and lefts to the body. It was Harvey's round but, had Downey let him go, he probably would have fallen out of the ring.

GERMANY'S MOTIVE IS DISCUSSED IN CAPITAL. UNCLE SAM IS MESSENGER.
(ASSOCIATED PRESS TELEGRAM)

Washington, Dec. 12.—News that Germany and her allies were about to enter on peace negotiations was immediately sent to President Wilson. Speaking for the President, Secretary Tamm said he was deeply interested but could make no comment, at least until it was learned what reception the proposal received from the entente allies.

The state department received its first intimation of Germany's peace proposal through the Associated Press dispatch from which officials assumed that the officers of the neutrals addressed are asked only to transmit the proposals. This will be done so far as the United States is concerned, promptly on receipt of the official dispatch in Washington. They will be forwarded to all the entente countries where the United States represents the Central Powers diplomatically.

Whether the United States would accompany the transmission with any comment or suggestion it was indicated, depends entirely upon the nature of the proposal and whether it is considered likely of consideration. If the offer seemed one on which all sides might negotiate the United States probably would urge that it be taken up.

In transmitting the proposals it was officially stated the United States probably would follow the practice which has been invariable so far in acting as the medium of communication between the hostile nations and would not make them public. The terms would of course be known to President Wilson and Secretary Lansing who would examine them to determine whether they should be accompanied by any word from the United States. The news was practically the only topic of discussion among the members of congress as they assembled for the day's session. The regular cabinet meeting was scheduled this afternoon at the White House and there was no doubt it would be discussed there.

The foreign embassies and legations received their first intimation of the event through Associated Press dispatches. On every hand the discussion turned to what had moved Germany and her allies to make their proposals at this time. Although for many weeks there have been reports that some peace proposals were about to be made by President Wilson, there was no open indication that the Central Powers themselves were about to make one. Generally the announcement was a distinct surprise in official and diplomatic circles.

One prevailing opinion was that the German allies had brought out their peace offer at this time with the expectation of "making terms" which might be acceptable to the allies of England and in effect might possibly cause the British government to yield to the pressure of the nations fighting with her. In this connection, the recent crisis in Russia, in which the duma interfered to prevent the negotiations of a separate peace with Germany, was recalled as an indication of what the German foreign officer might be looked forward to in peace negotiations.

It has been generally acknowledged in entente circles that efforts would be made by Germany to conclude peace separately with her enemies but so far all the entente nations have reiterated their intention to adhere to their agreement made early in the war not to make a separate peace. The recent death of the Austrian emperor, Francis Joseph, and the succession of King Charles to the throne of the dual monarchy also was discussed as one of the considerations which might be a factor in bringing out peace proposals at this time.

The United States represents Austria and Germany in Belgium, France, Great Britain, Japan, Russia, Serbia and Rumania; represents Turkey in France, Great Britain and Japan; has taken over Bulgarian interests nowhere and does not represent any of the belated governments in Italy, Portugal or Montenegro.

Dispatches to the German embassy, telling of the chancellor's action arrived soon after the news dispatches. The terms for the restoration of Belgium and portions of France, gave no indication, so far as is known, of stipulations such as generally have been expected by the allies, although they did not absolutely dispose of their possibility.

It was indicated that while the German allies might not entirely expect that the proposals would actually cause a peace conference, they were not without hope that they would, and they were hopeful at least that they would be the means of getting the belligerents together in some manner to discuss the situation and this, it was expected, would lead to a basis for peace.

and place upon the entente powers the responsibility for continuing the war in the face of offers for peace. The second, they declare, is for internal effort in Germany.

Washington diplomats, while without official information as to the terms of the proposal, believe they are somewhat after the general nature of the following:

Restoration of Belgium and France; not Alsace-Lorraine. Establishment of Poland as independent kingdom. Mesopotamia retained by Germany which would threaten British control of Egypt and India. Bulgaria to cede Serbia. Turkey's interest to be a secondary consideration. Return to Germany of conquered colonies.

STATE GRANGE NOTES.
Two other State Granges are holding annual meetings simultaneously with Ohio, Pennsylvania and Michigan at Detroit. The Ohio Grange will send telegraphic greetings to both.

Renben Rankin and wife of Fayette county, are attending their sixteenth successive state meeting as delegates. Both are known to nearly every delegate present.

Ohio State Grange not only believes in equal suffrage but practices it. If a man is elected as a delegate his wife automatically also becomes one and goes to the State meeting with every prerogative that appertains to her husband's position, and the converse also is true, when a woman is elected.

It isn't to be wondered at that a man feels restless when even his wife is unsettled.

delegate. There is only one unmarried woman a delegate this year.

There are seven degrees in Farmers Grange work. The first four are necessary for the subordinate Grange, the fifth for the county, sixth for the State and seventh for the National Grange.

An interesting feature of Tuesday afternoon will be the "Lecturers' Conference," to be held at 3:30. There will be several topics discussed as follows: "How can the Lecturer Cultivate a Love for the Beautiful," by Mrs. C. E. Bell of Dennison; "Community Work and Its Relation to the Grange," J. E. Newell, Superintendent of Schools of Jackson; "Patrons and Preparedness," Mrs. J. E. Tinker, Lecturer for Knox county; "How Can a Lecturer of a Grange Create a Spirit of Loyalty in Members Who are Weak in Program Duty," Miss Ada Neff, of Barnesville. Many other topics came in for a general and informal discussion.

This is the 44th annual meeting of Ohio Grange and the 50th anniversary of the establishment of the order.

The youngest but not the least interested attendant upon the State Grange meeting is Austin James Huff, who is 15 weeks old today. His parents Mr. and Mrs. Harlow Huff of Chardon, Geauga county. The next youngest is the 8 months' old son of Mr. and Mrs. N. A. Mealey of Trumbull county.

Miss Dora Ellis of Warren county, now in charge of the mailing department of the Wooster Experiment Station, is the only honorary member in attendance who was present when the Ohio State Grange was organized at Lebanon, 44 years ago. Miss Ellis looks as if she must have been very young at that time.

Agent Wilson is Promoted; Change In Local Office

The passenger department of the Baltimore and Ohio railroad company, today, announced a number of important changes in the local ticket office, effective December 1.

William C. Wilson, present agent, has been made passenger and ticket agent, Raymond C. Turner, assistant ticket agent and Louis W. Wall, night assistant ticket agent.

The changes in the local office means a promotion for Mr. Wilson, who has been ticket agent here for some time. The addition of passenger agent to his work, will take him away from the office considerably in the interest of securing new business for the company. The office will be under Mr. Wilson's supervision but in charge of Mr. Turner.

It isn't to be wondered at that a man feels restless when even his wife is unsettled.

**Note to United States Ex-
presses Willingness to Al-
low American Diplomatic
Representatives to Visit
Belgians in New Homes—
Counter Charge of Depor-
tation Against Allies**

(ASSOCIATED PRESS TELEGRAM)
Berlin, Dec. 11, via London, Dec. 12.—Germany's answer to the American note regarding the deportation of Belgians is confined almost exclusively to a presentation of the situation in Belgium before the deportation order became effective. The note declares that there was an urgent need of some kind of work for the Belgians because their idleness was causing demoralization and says that the deported workers are assured of well being in new situations in Germany.

The reply volunteers to permit American diplomatic representatives to visit the workmen's camps and assure themselves that the Belgians are well off. It concludes with an expression of regret that the United States has never seen fit to protest against what it describes as the dragging off of Germans from East Prussia, Alsace and other places to ghettos and elsewhere. These actions, of which it accused the allies, are characterized in the reply as a severe violation of the laws of humanity. The note declares that the German government is convinced that the United States has been misinformed in regard to the measures which have been taken and says that the lack of work has increased until 1,200,000 are suffering and an unbearable situation is created. Nothing remained, therefore, the note concludes, but to offer the workless situations in Germany, since work for all was not at hand in Belgium. It is contended that the majority of those who have come to Germany are happy and contented, with high wages and increased personal liberties and that only those who prefer to loaf have been compelled to work.

The answer declares that the measure is entirely in accordance with international law and cites Article 443 of The Hague convention, which requires an invading government to maintain order. This, it is maintained, is possible only in Belgium by providing that people who are able to work shall have opportunity to do so and shall not fall a burden on charity. The note says that the measure has been carried out without severity and with all possible consideration. Mistakes, it asserts, have rarely occurred and have been due in part to the fact Belgians themselves erred in making up the lists of those to be transported to Germany by including persons unaffected by Governor General Bissinger's order of May 15, 1916.

The note goes on to say that Belgians now working in Germany are engaged in occupations permissible under international law such as agriculture and industrial pursuits and that the German government regrets extremely that the situation has been completely misrepresented in the United States by the "lying press of Germany's enemies." The German government, it is declared, in the interest of the Belgian people, would also regret if the activities of the Belgian relief committee was affected.

**PITTSBURGH MAY

OVER CHRISTMAS.**

(ASSOCIATED PRESS TELEGRAM)
Pittsburgh, Dec. 12.—Important manufacturing interests in the Pittsburgh district were today considering the advisability of shutting down their plants December 23 and allowing them to remain idle until January 2, for the two-fold purpose of giving their employees a rest and to enable the railroads to clear tracks east and west of the vast quantities of freight daily being offered. It was said the machinery also needs overhauling, it having been in almost continuous operation for almost a year, a much longer time than usual.

In spite of heroic measures adopted by the railroads, freight continues to pile up at terminals. All freight depots in Pittsburgh are now being operated at night to allow consigners to remove freight, and yesterday the Pittsburgh, Cincinnati, Chicago and St. Louis railroad placed an embargo upon all freight except such as shall originate on and is destined to points along its own tracks.

(ASSOCIATED PRESS TELEGRAM)
Washington, Dec. 12.—Former members of the house of representatives today urged the supreme court in submitting the habeas corpus case of United States District Attorney H. Snowden Marshall of New York, in proceedings charging him with being in contempt of the house, to uphold power of the senate or house to punish offenses which detract from their dignity and authority.

Former Representative Martin W. Littleton and Henry M. Goldfogel, with D. Cady Herriek, all of New York, represented the house today in final hearings of the case, in which many members of congress have manifested keen interest. Powers of congress, they contended, to punish contempt is inherent and necessary to maintain public regard for its action. The court was asked to dismiss Mr. Marshall's habeas corpus suit so that he may be required to appear before the house to answer to the contempt charge, based upon his letter to a house subcommittee investigating impeachment charges against him.

Final disposition of impeachment charges brought by Representative Buchanan of Illinois, are understood to await the court's decision in the habeas corpus proceeding. The house judiciary committee has recommended that no further action be taken in the impeachment proceeding. This recommendation is now on the house calendar.

Representative Buchanan is also awaiting trial under a New York federal grand jury indictment charging him with conspiring to cause strikes in munition factories in connection with activities of labor peace council.

(ASSOCIATED PRESS TELEGRAM)
Washington, Dec. 12.—Efforts to keep down the cost of food by bringing producer and consumer closer together are outlined in the annual report today of the federal bureau of markets. Some of the things accomplished in this direction extension of the bureau's market news service; study of economic methods of food distribution and transportation; experimental work and parcel post shipment of foods; investigation of co-operative purchasing and marketing and plans for municipal public markets.

Plans were developed during the year for investigation of foreign markets for American farm products and for assisting in developing an export trade in foodstuffs. In this connection problems to be taken up first will be those that give the best promise of early result, the report sets forth. Europe, South America and China will receive special attention. The marketing of fruits and vegetables, especially of the less perishable variety, will be studied with a view to developing the foreign demand.

ANNUAL SESSION OPENS

**State Master Taber's An-
nual Address Presented
at Afternoon Session—
Brands Proposed Food
Embargo As Foolish—
Asks More Efficient State
Administration**

A dramatic incident characterized the opening session of the Ohio State Grange, at 10 o'clock Tuesday morning, and one not on the program. State Master Louis J. Taber of Barnesville had called the meeting to order, and almost the first thing he did was to read an Associated Press telegram that had been sent to the meeting from the Advocate office announcing that Germany and her allies were prepared to negotiate for peace. There was no outburst of applause, but the announcement was received with profound solemnity, and a motion was made that with bowed heads the delegates engage in a few moments of silent prayer that these negotiations would be successful, and that peace would be speedily restored. An absolute silence pervaded the hall as every head was bowed and every heart ascended to the Throne of God's grace in humble supplication for the accomplishment of this desideratum.

The first business transacted was to receive the report of the committee on credentials, which announced that the list of delegates submitted by the secretary was found to be correct in every detail. This was followed by the first roll call, which disclosed the fact that many delegates had not yet arrived.

E. A. Tussing of Franklin county was named as temporary overseer in place of S. J. Pierce, now in the north for his health.

A recess was taken about 11:40 to allow the committees to meet and formulate their reports which will be submitted at a later session.

These committees with the chairman of each are as follows:

Credentials, D. E. Mills, Carroll county; Auditing, W. G. Vandenberg, Muskingum; Finance, E. Y. Denman, Licking; Agriculture, O. B. Young, Licking; Constitution and By-laws, A. A. Harmon, Ashtabula; Game and Bird Protection, Clyde E. Brown, Ashtabula; Co-operation, George W. Montgomery, Hancock; Education, Homer C. Price, Licking; Good of Order, Arthur Oyster, Stark county; Home Economics, Mrs. W. G. Vandenberg, Muskingum; Insurance, E. A. Atwood, Geauga; Juvenile Granges, Mrs. John Cunningham, Knox; Pure Food, John W. Foltz, Summit, Public Highways, O. W. Snider, Fairfield; Peace, Rev. F. H. Mitterdorf, Ottawa; Temperance, N. A. Mealy, Trumbull; Taxation, Reuben Rankin, Fayette; Resolution, John Cunningham, Knox; Special Committee of Markets and Meetings, Homer C. Price of Licking, and John Cunningham of Knox are both on this committee, both having studied this question at home and abroad.

The feature of this afternoon's session was the address of Louis J. Taber of Barnesville, State Master, which was attentively heard and many passages enthusiastically received.

State Master Taber's address to delegates was a masterpiece presentation of the policies and beliefs of the Grange and the questions he discussed showed him to be a deep student of current events. His address in part was as follows: We meet today in annual session with every county in the State entitled to representation. We meet as the representatives of sixty-five thousand earnest and loyal Patrons. But we meet in the larger capacity, as the spokesmen and defenders of the more than one million men and women whose interests are in the fields and farms of Ohio. We meet with the eyes of our members turned toward Newark; but we also meet with all interested, hopefully watching our every action. The mere fact that for forty-five years an organization can meet with representatives coming from every section of the State is sufficient to challenge the attention of this busy, matter-of-fact age, but when this organization finds itself stronger at the end of that long period, than during its history, it is indeed significant.

We talk of such achievements as the Interstate Commerce Commission, our Secretary of Agriculture, Rural Delivery, Parcel Post, Postal Savings Bank, Pure Food Legislation, Direct Election of United States Senators and a host of other reforms that the Grange has championed, and had a cardinal part in bringing to fruition, as the crowning work of the Grange. The greater service of our Order has been performed in developing the farmer himself, in carrying on an operation from which he never rallied.

Bethmann-Hollweg Makes Announcement To The Reichstag

**STOCK MARKET
HARD HIT BY
PEACE OFFERS**

(ASSOCIATED PRESS TELEGRAM)
New York, Dec. 12.—The stock market became immediately unsettled today on the receipt of the news of the Teutonic peace proposals. Munitions and shares of other companies which have profited by the war were most affected, Bethlehem Steel dropping 26 points.

United States Steel fell 3 points and other prominent industrials yielded as much.

Trading became feverishly active on the decline and urgent liquidation was evident. Professional traders aided the decline by selling of the more speculative shares.

The selling embraced practically every issue in that class of specialties which have been strongest and most active recently. While the market was not demoralized in the first period of heavy selling support was evident only in the investment issues.

The news from Berlin was preceded by a heavy tone, as Wall street was not altogether unprepared for it, international bankers having received word during the last few days that developments of the highest importance were impending in that quarter.

**WHEAT DROPS
EIGHT CENTS;
CORN 2 CENTS**

(ASSOCIATED PRESS TELEGRAM)
Chicago, Dec. 12.—Wheat on the Chicago board of trade in receipt of the news of the proposals for peace of Germany and her allies broke more than eight cents. May wheat sold last night at \$1.75 1-8. Within 15 minutes after the opening today the price touched \$1.66 1-2.

The extreme drop was to \$1.66 1-2 for the May delivery, a loss of 8 5-8 cents as compared with yesterday's finish. At this point buyers took hold with vigor, and a rally to \$1.68 1-4 for May ensued.

May corn dropped to 90 1-8c, a loss of 2 1-8c compared with closing prices of yesterday. May oats similarly sold off 1 7-8 cents to 54 cents. January hard, the index of the present market, after selling at 1500, advanced to 1590 on the peace proposals.

After a period of comparative steadiness, the market was again overwhelmed with wave after wave of selling as the day approached an end.

In the demoralization during the last fifteen minutes of the session wheat for May delivery broke to \$1.64, a drop of 11 1-8c a bushel in 24 hours. December touched \$1.53 1-2, a fall of 11 1-4c.

The details of Germany's offer had become generally known, and traders for the most part seemed to think that the chance of a refusal to treat on the part of her opponents was not so likely as an acceptance. The close was wild, 4 7-8c to 10 3-4c under yesterday's finish with May at \$1.65 1-2 to \$1.65 3-4 and July at \$1.42 3-4 to \$1.43.

COTTON ADVANCES.

(ASSOCIATED PRESS TELEGRAM)
New York, Dec. 12.—The announcement of German peace proposals served to stop the decline in the cotton market here this morning, prices advancing from the opening of 1818 for May to 1850, or about \$3.50 a bale above the low level of yesterday afternoon.

No Intimation of Terms of the Teutonic Powers' Proposal Has Been Made Public, But Diplomats Believe They Will Include Restoration By All Belligerents of Territory Occupied Since Beginning of War Except Poland--Germany Will Retain Alsace-Lorraine and Probably Mesopotamia--Bulgaria to Get Serbia

(ASSOCIATED PRESS TELEGRAM)
Berlin, Dec. 12.—(Sayville wireless.)—Germany and her allies today proposed to enter forthwith into peace negotiation. The propositions which will bring forward are, according to Chancellor von Bethmann-Hollweg, appropriate for the establishment of a lasting peace.

The Austrian, Turkish and Bulgarian governments are making similar proposals. These proposals have been transmitted also to the Vatican. The following announcement was given out today by the semi-official Overseas News Agency:

"The chancellor this morning received one after another, the representatives of the United States of America, and Spain and Switzerland, that is, of the states protecting German interests in hostile foreign countries. The chancellor transmitted to them a note and asked them to bring it to the knowledge of the hostile governments. The note will be read today in the Reichstag by the chancellor.

"In the note the four allied (Central) powers propose to enter forthwith on peace negotiations. The propositions which they bring for such negotiations are, according to their firm belief, appropriate for the establishment of a lasting peace.

"The governments at Vienna, Constantinople and Sofia transmitted identical notes and also communicated with the holy see and all other neutral powers."

ANTE BELLUM STATES RESTORED.

(ASSOCIATED PRESS TELEGRAM)
Washington, Dec. 12.—Advices from Berlin to the German embassy indicate that Germany's peace terms, in general measure propose the restoration of the statu quo before the war with the exception of the establishment of independent kingdoms of Poland and Lithuania. They are understood to propose the complete restoration of the occupied portions of Belgium and France in return for Germany's captured colonies and to dispose of the Balkan situation because of its extremely complicated nature, in the peace conference.

KAISER SAYS KEEP ON FIGHTING.

(ASSOCIATED PRESS TELEGRAM)
London, Dec. 12.—A Central News dispatch from Amsterdam says it is announced officially in Berlin that Emperor William has notified his commanding generals of Germany's peace offer and has informed them it is still uncertain whether the offer will be accepted. Until that uncertainty is ended, the message says, they are to fight on.

**CHANCELLOR'S SPEECH
TO REICHSTAG HEARD
BY WHOLE MEMBERSHIP**

(ASSOCIATED PRESS TELEGRAM)
Berlin, Dec. 12. (Wireless to Sayville).—Chancellor von Bethmann-Hollweg's speech is reported by the Overseas News Agency as follows: "Chancellor von Bethmann-Hollweg today announced to the Reichstag that Germany, together with her allies, conscious of their responsibility before God, before their own nation, before humanity, had proposed this morning to the hostile powers to enter on peace negotiations."

Practically all the members of parliament answered the unexpected summons. The crowded house and thronged galleries listened in attentive silence when the chancellor rose for his speech.

The chancellor first outlined the extraordinary political situation and then, insisting upon achievements of the central powers, made an announcement which possibly may be the turning point in the war, which for more than two years has held the world under its spell. The chancellor said:

"The Reichstag had not been adjourned for a long period, but unfortunately it was left to the discretion of the president as to the day of the next meeting. This decision was caused by the hope that soon happy events in the field would be recorded, a hope fulfilled quicker, almost, than expected. I shall be brief, for actions speak for themselves."

The chancellor said Rumania had entered the war in order to roll up the German positions in the east and those of Germany's allies. At the same time the grand offensive on the Somme had as its object to pierce the German western front, and the renewed Italian attacks were intended to paralyze Austria-Hungary. "The situation was serious," the chancellor continued. "But with God's help our whole shaped condi-

tions so as to give security which not only is complete but still more so than ever before. The western front stands. Not only does it stand but in spite of the Rumanian campaign it is fitted out with larger reserves of men and material than it had been formerly. The most effective precautions have been taken against all Italian diversions. And while on the Somme and on the Carso the drum fire resounded while the Russians launched troops against the eastern frontier of Transylvania, Field Marshal von Hindenburg captured the whole of western Wallachia and the hostile capital of Bucharest, leading with unparalleled genius the troops that in competition with all the allies made possible what hitherto was considered impossible.

"And Hindenburg does not rest. Military operations progress. By strokes of the sword at the same time foundations for our economic needs have been laid. Great stocks of grain, victuals, oil and other goods fell into our hands in Rumania. Their transport has begun. In spite of scarcity we could have lived on our own supplies, but now our safety is beyond question."

"To these great events on land," the chancellor continued, "heroic deeds of equal importance are added by our submarines. The spectre of famine, which our enemies intended to appear before us, now pursues them without mercy. When after the termination of the first year of the war the emperor addressed the nation in a public appeal he said: 'Having witnessed such great events my heart was filled with awe and determination.'"

"Neither our emperor nor our nation ever changed their minds in this respect. Neither have they now. The genius and heroic acts of our leaders have fashioned these facts as firm as iron. If the enemy counted upon the weariness of his enemy, then he was deceived."

Homer

"The reproductions of the selections I sang for Victor Records are wonderfully lifelike—they reproduce the natural quality of the human voice."

Margella Sembrich

"I believe that the process by which the Victor Records are made is the most perfect of all methods of voice reproduction. I have made records exclusively for the Victor since February 1910 and my present contract does not expire until February 1938."

Victor Supremacy

What do the greatest artists think of it?

In your selection of a musical instrument, the opinions of the world's greatest artists are of inestimable value to you.

They know music. They are the recognized authorities. And when they say the Victrola reproduces their art absolutely true to life, you can depend upon their knowledge and endorsement. But they go still further. So great is their confidence in the fidelity of the Victrola that they make records for the Victrola exclusively.

The Review club, which was entertained on Saturday by Mrs. T. M. Edmiston at her home on Hudson avenue was one of more than usual interest. The program, "The Orchestra" given with illustrations by Mrs. C. B. White of Granville was most instructive and interesting, and a fine preparation for the fuller enjoyment of the Symphony orchestra to hear this winter. Mrs. White went home laden with compliments and roses, and Mrs. Edmiston was certainly appreciated for arranging so fine an entertainment. The afternoon closed with a social hour and delicious refreshments. Leaflets giving a list of the instruments in a well balanced orchestra with an explanation of the interpretations of each instrument, was enlightening to many of those who heard Mrs. White's talk.

Milady's Boudoir

The most celebrated nerve specialist in the world cannot restore overtaxed nerves without some material assistance from his patient. He may prescribe a regimen calculated to relieve the high tension, by building up the general health and eliminating worry, excitement, and undue haste, but the sufferer herself must make an effort independent of medical aid.

Of first assistance in getting control of the wayward nerves is will power. Not a weak, anemic, bland of this force, but a strong efficient one that makes for unfailing perseverance.

Many people possess will power that exercises remarkably well in some directions, especially when it concerns their own desires, but when the will operates directly upon themselves, as in the case of compelling the nerves to "behave" it relaxes and becomes more of an enemy than a friend. Every time that the will power is put into active operations and quells nervous squalls, the patient scores one in checkmating a further explosion of frenzied nerves. The monotonous grind of daily work, whether it be directed in the home or office should be broken by periods of physical exercise and mental exhilaration. The ideal day is separated into three parts: Eight hours for sleep, eight hours for work and the rest for play.

Staying at home with but few outside interests dulls the brain and makes one less companionable for people who enjoy a certain amount of pleasure derived from outside sources.

Reading should be undertaken as a means of education and as a diversion, especially those books and articles that tend to give the reader a higher broader viewpoint of things. A humorous story makes an excellent tonic for jangling nerves.

The best bottles for a bottle baby are those that are round and cylindrical and have a narrow neck for the attachment of the nipple.

The one important requirement is that they have no corners on the inside, being rounded both at the bottom and at the top where the neck begins. This shape of the inside of the bottle enables it to be cleansed thoroughly.

It is best to get as many bottles as there are feedings in twenty four hours also buy a wire bottle-rack to hold them when the food is made up for the day.

NEW HYMN BOOK JUST OFF PRESS

Rev. B. M. O'Boylan has just completed the compilation of "The Peoples Hymn Book," for use in the church and school of St. Francis de Sales Parish. He was assisted in the work by the Sisters of St. Dominic and the book will be ready for distribution in a week or two. It is a hymnal of 89 pages, and contains about 75 hymns covering the range from solemn adoration of God, to joyful Christmas carols.

The compiler in a foreward states that he believes in more concerted congregational singing and that his aim in selecting the lyrics for the collection has been to choose those which would "supply the people of the parish with hymns easily learned by heart, to be sung by them on suitable occasions at home or in the company of friends, but especially at evening devotions and at low mass."

Father O'Boylan is a great believer in melody as an adjunct to the heart-felt appreciation of the beautiful sentiments contained in many of the great hymns of the church, which are elegant in diction and rhythm, and has followed this notion in compiling the book, which undoubtedly will become popular in the parish for which it is primarily intended, although other parishes may decide to adopt it.

AUDITORIUM.
Mme. Matzenauer.

With a father an opera conductor and her mother an operatic soprano, and the child to become Margarete Matzenauer, one of the greatest of the prima donnas of the Metropolitan Opera Company, Galtton's theory about hereditary genius has again proven itself true.

For in the words of Mme. Matzenauer, who will sing here at the Auditorium theatre, Dec. 12, on the Music Club's courses she cannot remember the time when she could not sing. At the time when other children are being Montessori and Froebelized by fond mothers, little Margarete was humming arias and folk songs with the stais and other singers, who appeared in the opera house with which her father and mother were connected. As a child she watched her mother from the wings, and from that time on she has gradually fulfilled the dreams of those times.

At twenty Margarete Matzenauer had made her debut as Puck in Oberon at Strassburg. Three years later she received a call to the Court Theatre in Munich, a signal honor. For seven years the leading contralto at the Wagner Festivals in the Prince Regenten Theatre in Munich and during that time guest singer in the leading cities of Europe, she came to America at the request of the Metropolitan Opera company, and made her debut here in 1911. Then South America, always willing to spend its pesos for the best, secured her at the Teatro Colon in Buenos Aires for one season.

And there she met and married the Italian tenor, Edoardo Petrucci, Fontana who has since won all that come to any singer at the Metropolitan Opera House and in Boston, and was but lately decorated with the order of the Commendatore by the Italian king. A baby, Adrienne, the first grand opera baby, has been the result of the union.

And should she too inherit the combined genius of her two parents there will be produced such a singer as the world has seldom known.

comb, the Neil O'Brien of amateur minstrelsy. The Newark boy is fast achieving fame as a black faced comedian and is equal to many of the professionals who visit this city. He will sing a comic ballad and his jokes will all be crisp and fresh. Other comedians will be George Rohan, the well known vocalist of East Newark, with a brand new line of jokes and song hits, George Winters and Joe Rohan, who can shake their feet and warble like a mockingbird.

The ballet singers are Fritz Drake, Stanley Shaw, Irvin Porter, Frank Strear and Albert Kain, and they will render a number of the latest song hits. These gentlemen were selected from among the city's best soloists and all are bound to make big hits.

The first part will represent a cabaret of a Palm Beach hotel and there will be swell coons, sweet girls, waiters, coachmen, guests and others. The triple quartette will assist in the entertainment and is composed of James Richter, Fritz Drake, Frank Strear, H. Vogel, W. Vogel, R. W. Congdon, F. C. Morris, S. Shaw, Irvin Porter, Albert Kain and H. Backenstos.

You'll miss it if you miss this year's Eagle show.

The Parisian Flirts

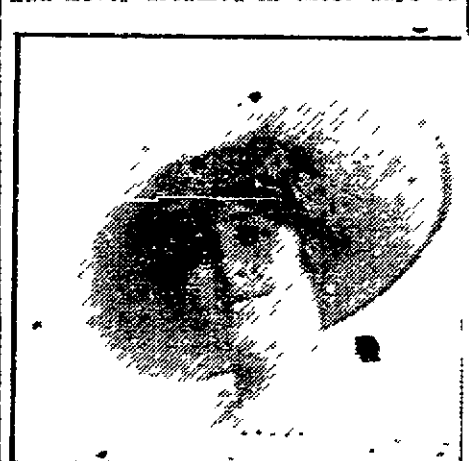

"The Parisian Flirts," headed by Charles Robinson, will appear at the Auditorium theatre next Monday. The press and the public have been unanimous in their praise of this witty attraction, Chas. Robinson, himself, has gained a world-wide reputation in the burlesque field, for selecting the best available artists procurable. He has gone far beyond the ordinary by engaging such well-known stars and vaudeville entertainers as the Harmonists, Flor, May Bernhard, and Mabel Lee, Gertrude Sommers, prima donna, Freda Lehr, Charles E. Edwards, Harry S. Levan, Al Turpee and Willie Mack. Each of these artists have been noted for their clever work and originalities.

The production and scenic effects are worthy of any \$2.00 attraction. The chorus are young vivacious, and as fine a gathering of dolls as have been seen here this season. Seats ready Friday.

"What One Girl Said."

"I wonder that so many girls make the fatal mistake of going to New York," said a young lady to her escort as the curtain fell on the second act of the most talked of drama of the year, "One Girl's Experience." "Perhaps I can answer that," observed her companion. "Youth always has hope and hope brings with it a boyant spirit of determination and fearlessness, intoxicating the senses to the reality of danger in the thought that danger exists only for the other girl!"

Lucy, the pretty working girl, heroine of Eugene Kirby's dramatization of "One Girl's Experience," which comes to the Auditorium soon, had never dreamed in these days of

ALHAMBRA.

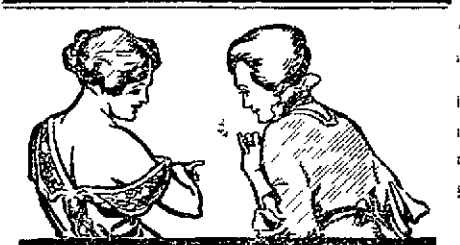

Cleo Ridgley, the clever young Lasky star, who will be seen at the Alhambra tonight, with Wallace Reid in the Jesse L. Lasky production of "The Yellow Pawn," has purchased for herself a new home in the hills near Hollywood and is going to be a true farmer. She has nearly a hundred hens on the place and disposes of the fresh eggs to the members of the Lasky company at the prevailing market prices. It is safe to say that if the present high price of this commodity continues to prevail, Miss Ridgley will soon be purchasing the Standard Oil Company from John D.

The cast of "The Jacobean House" the fourth episode of C. N. and A. M. Williamson's story, "The Scarlet Runner," which Vitaphone releases in twelve episodes with Earle Williams as the star has an unusual cast. Supporting Mr. Williams are found Zena Keefe, Walter McGrail, Josephine Earle and Harold Foslay. This series will be shown at Alhambra theatre every Wednesday and Thursday.

GEM.

The arrival of "The Love Girl" at the Gem theatre Wednesday will bring one of the brightest stars of Bluebird photoplays to interpret the leading role. Ella Hall shared honors with Robert Leonard in an earlier Bluebird, "The Crippled Hand," but in "The Love Girl" she will negotiate the stellar honors to the delight of thousands who have admired her work in previous service to the screen.

Harry Depp is likewise sure to win admiration for his work in association with Miss Hall in the several interesting and exciting scenes in which they jointly participate. There is a novel subject for photoplaying introduced during the progress of "The Love Girl," when Hindu mystics serve to well-nigh upset the calculations of everybody concerned. Sensationalism abounds for those who enjoy excitement, but these features by no means predominate. The most vital interest in the feature is likely to accrue from the perfectly human, natural and appealing work of Miss Hall and Master Depp in presenting the role of two splendidly equipped children—healthful, clean-minded, playful, and yet just a little bit mischievous.

Relieves Serious Case of Chronic Constipation

Dr. Caldwell's Syrup Pepsin Corrects Condition That Seemed Hopeless.

After suffering from chronic constipation until she was so run down she was unable to do any kind of work, Miss H. A. Frees, 209 Adams St., Dayton, Ohio, obtained a bottle of Dr. Caldwell's Syrup Pepsin and used it with such gratifying results that she continued the treatment and has written to Dr. Caldwell that her condition is again normal, and that she wants to recommend Syrup Pepsin to everyone who suffers with constipation.

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin, gentle in its action and free from griping or other pain or discomfort. It contains no opiate or narcotic drug, and while acting readily on the most stubborn case of inactive bowels is absolutely safe for the tiniest babe, so that it is the ideal family laxative and should be kept on hand in every household for use when needed.

Dr. Caldwell's Syrup Pepsin costs only fifty cents a bottle and is sold in drug stores everywhere. To avoid imitations and ineffective sub-

Washing Won't Rid Head Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

T. J. Evans and all druggists sell Rheuma on a no-cure-no-pay basis for not more than 50 cents a bottle, and after you take a half teaspoonful once a day for two days you should know that at last you have obtained a remedy that will conquer rheumatism.

For over five years throughout America Rheuma has been prescribed by broad-minded physicians and has released thousands from agony, pain and despair. (Advertisement.)

ASTHMA

Simple Harmless Remedy Brings Quick Relief.

Many cases of immediate relief and rapid cure of bronchial asthma and long standing and other diseases of throat and lungs are being credited to a discovery made by Dr. Eugene Howard of Worcester, Massachusetts, his prescription, which is largely different from all usual methods of treatment for these afflictions, is called Oxidase and comes in the form of a small white tablet which the patient allows to melt in the mouth. Its action is to break up this mucus with the aid of an enzyme every crvice of the mucus, bronchial membranes, release the mucus from restriction of the bronchial tubes, open up the air passages and regulate the spasmodic lung action. These tablets though pleasant to the taste are so powerful and rapid in their action that many users who for years have labored to sit up in bed gasping for breath and unable to sleep report that it is as easy as putting a single Oxidase tablet in the mouth when going to bed and can then lie down and breathe easily and naturally and get a good night's restful sleep. W. A. Erman, Evans Drug Store, and many other local druggists who handle Oxidase tablets will mail you a complete guarantee of money back if it does not give immediate relief. (Advertisement.)

FARMERS TESTIFY IN INQUIRY INTO LIVING COSTS.

(ASSOCIATED PRESS TELEGRAM) Chicago, Dec. 12.—One hundred farmers from Wisconsin, Indiana and Illinois and 500 grocers of Chicago will be summoned by the government in the grand jury's inquiry into the high cost of living, according to United States District Attorney C. F. Clyne.

This determination of the district attorney followed expression by the jurors of a desire to investigate thoroughly every phase of the food question. Heads of the grocery departments of various big stores were witnesses today.

60,000 CHILDREN COLLECT PAPER TO RELIEVE SHORTAGE.

(ASSOCIATED PRESS TELEGRAM) Philadelphia, Dec. 12.—More than 60,000 pupils of the parochial schools in this city have been enrolled in the campaign to collect and save every available piece of paper in an effort to relieve the shortage. It was announced today. The campaign was started by Rev. John E. Flood, superintendent of the parochial schools, and plans are under way to enlist the help of the 250,000 public school children. Leaders of the movement pointed out that in addition to reducing the shortage of paper the children would realize a considerable sum of money for the improvement of the play centers throughout the city.

GOVERNMENT URGES ECONOMY IN FIGHT AGAINST HIGH PRICES.

(ASSOCIATED PRESS TELEGRAM) Washington, Dec. 12.—Government officials made it plain today that while they are conducting inquiries into the high cost of living and planning hard jury action against any who have conspired to maintain prices, the principal remedies must come through economies and cooperation of the public. They recommended that persons buy as little foodstuffs as possible and seek cheap substitutes for high priced articles in many cases. Better methods of transporting necessities of living to consumers and increased production by farmers were other direct remedies suggested.

U. S. TRANSPORT AGROUND OFF JERSEY COAST.

(ASSOCIATED PRESS TELEGRAM) New York, Dec. 12.—The United States army transport Summer, bound from Colon to this port with army officers, troops and civilian passengers, is hard aground on the New Jersey coast off Barnegat. Two coast guard cutters under forced draught are rushing to the relief of the transport, which sent out calls for help after she struck in a heavy fog last night.

The Seneca, which was off the eastern end of Long Island when directed to go to the aid of the Summer, reported that she would probably reach Barnegat about noon today. At 2:30 this morning the Mohawk, which was at anchor off Staten Island, left for the scene and it is believed she will reach there before the Seneca.

The transports normal complement is eleven officers and a crew of 118, but she has been carrying many soldiers stationed at Panama to and from the Isthmus. The last time she reached this port she carried 195 passengers.

A wireless dispatch received here from the Summer at 7 o'clock this morning states the vessel was beginning to pound with the rising tide. The sea, however, was smooth and a light northwest wind blowing. The situation was considered favorable. The dispatch reads:

"Rain at present. Sea smooth. Light ground swell. Wind light, northwest, thick fog. Ship beginning to pound as tide is making up. Boat from life saving station standing by to pass line to coast guard cutter Seneca and Mohawk."

A GOOD WINTER HABIT

Many people dread winter because the sudden climatic changes bring colds, grippe, rheumatism, tonsillitis or bronchitis. But thousands of well-informed men and women today avoid much sickness for themselves and their children by taking a few bottles of Scott's Emulsion to make richer blood, fortify the membranes of the throat and chest and create body warmth to resist sickness. Soldiers at war receive cod liver oil; it will also strengthen you. Scott & Bowne, Bloomfield, N. J. 16-31

CONSTANTINE PLAYS FOR TIME; SUPPLIES SHORT.

(ASSOCIATED PRESS TELEGRAM) London, Dec. 12, 7:15 a. m.—An Amsterdam dispatch to the Times says that Count Reventlow, the well known German military critic says that King Constantine now desires to gain time to enable the Germans to concentrate a relieving force. The count is quoted as adding that it is uncertain if the Greek supplies will last long enough to permit the Germans to come to their assistance.

Goodbye Wrinkles! Bad Complexions you must go!

NOUVELLE BEAUTE POUR
TOUTES LES DAMES

Remarkable discovery of skin osmosis promises to make wrinkled, hollow-checked, aged looking women astonishingly beautiful, youthful and charming.

FRANCE'S GREAT PRIZE BEAUTY TELLS—

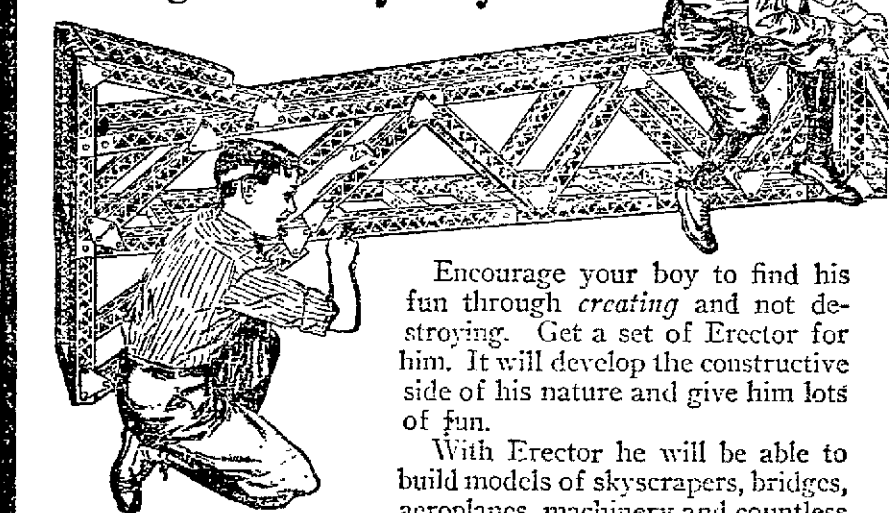

How you can almost immediately suppress the appearance of smaller wrinkles and marks of age and make yourself look from 5 to 15 years younger in 20 days' time. How to banish every complexion blemish in three nights in many instances.

A thousand times I have heard rich women say: "Oh! youth is so wonderful! I would give everything I possess for youth and beauty again! No woman with the slightest spark of pride or ambition in her wants to be wrinkled and aged, careworn, faded and forgotten so that men wish to avoid her at every dance and dinner party, and women themselves would like to invite someone who looks younger to brighten up the occasion. Yet there is no longer any reason why the average woman need look so old and plain even if she is old.

Since the remarkable discovery of skin osmosis almost any woman can obtain most astonishing new beauty and a most surprisingly youthful appearance even though she is 40, or 50 or more years of age. The Countess de Chevalance who at 70 years of age possesses a marvellously soft, smooth, velvet-like skin and an almost faultless complexion without a wrinkle in sight, told the writer personally in Paris that she owed it all to the discovery of skin osmosis. With this marvellous discovery every complexion blemish can be banished in three nights in many instances and you can awaken in the morning with a beautiful rose-colored complexion fresh as a daisy.

I have known dozens of hollow-checked, wrinkled, aged-looking women, who had given up all hope of ever looking beautiful and youthful again, to "come back" and again become most beautiful, youthful and fascinating in from two to three weeks' time by this wonderful, simple method. No matter what your age or what you have tried unsuccessfully, skin osmosis will positively bring you new beauty and youth. Merely wash your face in warm water at night and rub in a teaspoonful of two of any good rose-scented cream which you can obtain from your druggist. In the morning wash the face with cold water and rub in more cream.

DIXIE COAL MAKES MORE HEAT

Granville

(Special to Advocate.)

Granville, Ohio, December 12.—Monday afternoon the South American "Travelers" had reached Paraguay, that small republic between Brazil and Argentina which, in point of area, conformation and size of its two rivers, somewhat resembles our own state of Illinois. Under the caption "The Land of Women, Tea and Oranges," Mrs. Daniel Rogers spoke in an interesting way of many aspects of the country: of its dignity in possessing for its capital the oldest city in the two Americas, Asuncion, founded in 1536. The nation is far from prosperous, and is badly in debt.

Mrs. Frank Carney told the story of "Maldonado," the woman of "evil gift," in a charming manner. The "Wonders of the Parana," were given full scope by Mrs. Mary N. Jones, who described the Rio de La Plata river system as the greatest in the world, and the Parana, a continuation of the Plata, as second only to the Amazon. The Falls of Iguazu, one of the world's wonders, as well as numerous other falls of the region, were described. Mrs. William E. Hopkins in "The Mystery of El Grau Chaco," the unexplored region which has claimed so many lives, treated of the fusion of races, in South America. One more meeting will be held before the holidays. Plans were about completed for the annual presentation of Handel's "Messiah," which will be sung by the Engwerson chorus on Sunday afternoon, December 17, assisted by the Denison orchestra, under the direction of Prof. Karl H. Eschman, of the conservatory. The orchestra is to be augmented by Columbus and Newark players, and in addition to the soloists already announced, there will be a contralto from Columbus, Mrs. Marion Rose Johnson will sing the soprano roles; Mrs. Corinne Lockman the contralto; Mr. R. W. Soule the tenor and Mr. Paul Curtis the bass.

The Baptist church has been none too large heretofore for the crowds usually attending this magnificent Christmas offering. The performance begins at 3 o'clock. The invitation is general. The girls of Shephardson college, realizing that very little time will be left them after school closes on the 22d, in which to make their Christmas preparations, have arranged for a bazaar to be conducted under the auspices of the Y. W. C. A. on Saturday, Dec. 16 in Doane gymnasium. Miss Helen Robinson, a Denison girl, who is one of the Student Volunteers, and exceedingly interested in South America, gave an illustrated talk in Burton Hall, Monday evening in which she delightfully brought out the characteristics of Chili, Argentina, Uruguay, and Buenos Aires by means of lantern slides.

The King's Daughters rooms are humming with activity. The bazaar opened this morning promptly at 10 o'clock, and the sale of Christmas presents has been steady. Dinner was served at noon, and supper will be served this evening. Everybody in town is paying their respects and their silver.

In recital hall tonight at 7:30 o'clock, Dr. Carney will give an illustrated lecture on "Geography and Climate." All are invited.

A Single Application Banishes Every Hair

(The Modern Beauty.)

Here is how any woman can easily and quickly remove objectionable, hairy growths without possible injury to the skin: Make a paste with some powdered delatone and water, apply to hairy surface and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. This is a painless, inexpensive method and, excepting where the growth is unusually thick, a single application is enough. You should, however, be careful to get genuine delatone. —Advertisement.

DUTCH SHIPS TO BE HELD FOR GRAIN CARGOES.

(Associated Press Telegram.) London, Dec. 12.—An Amsterdam dispatch to the Times quotes the Maaschode as saying that immediately after it was known that David Lloyd George had become British premier a special meeting of the Dutch cabinet was held. After this meeting the Maaschode said, telegrams were sent to all Dutch shipping agents in America instructing them to reserve all available tonnage to government grain and cancel all arrangements for other freights.

FRENCH DEPUTIES OPPOSE PLAN TO REDUCE CABINET.

(Associated Press Telegram.)

Paris, Dec. 12.—Premier Briand speaking to a group of reporters last night, said:

"There is nothing absolutely positive as yet but you can announce that the new government will in all probability appear in the chamber of deputies Wednesday."

Some of the deputies are not satisfied with the plans of a concentrated ministry and desire to condense parliament. Deputy Georges Bonnet has introduced a bill for the creation of a parliamentary committee of national defense which will continue for the duration of the war. This committee would consist of thirty delegates elected by the deputies and forty elected by the senate. The committee would meet weekly to consider information relative to the military diplomatic and economic conduct of the war as communicated by the government.

The chamber and the senate would hold a brief session not more than once a month in which to transact necessary business and ratify the decisions of the committee.

VAR-NE-SIS HELPED NEW HAVEN MAN

Pain of Rheumatic Joints Responded
After Other Remedies Failed.

Wm. E. Goss, of 104 Olive street, New Haven, Conn., is enthusiastic about Var-ne-sis. He said:

"I suffered from rheumatism of the joints for five years. I was in constant pain most of the time and was unable to sleep or find a comfortable position. My hands and fingers were stiff and sore. My knees were very stiff and if I remained quiet any length of time, I had great difficulty in going up or down stairs. My legs would cramp and swell."

Nothing in the form of medicine seemed to help me in spite of going before a clinic for treatment.

Four months after taking Var-ne-sis I was a well man without a pain or an ache. I am recommending Var-ne-sis to all sufferers and cannot praise it too highly.

Send to W. A. Varney, Lynn, Mass., for the "Story of Var-ne-sis." Get Var-ne-sis now at all reliable drug stores. Get Var-ne-sis now at R. W. Smith, druggist, and all reliable druggists. —Advertisement.

For All Complexion Ills

If the skin be colorless, sallow, muddy, over-red, blotchy, crapped or freckled nothing will so surely overcome the condition as ordinary mercolized water. It literally takes off a bad complexion—absorbs the dead and near-dead particles of surface skin, and gradually causes no inconvenience at all. A new complexion is then in evidence, clear, spotted, delicately soft and beautiful. One ounce of this was, presumably, any drug store, will rejuvenate even the worst complexion. It is used like cold cream. —Advertisement.

PRESIDENT WILL VETO LITERACY TEST FOR ALIENS.

(Associated Press Telegram.) Washington, Dec. 12.—Friends of a literacy test for aliens arriving in the United States, one of the principal provisions in the immigration bill now under discussion in the senate, received information today that President Wilson would veto the measure if it comes to him with that feature incorporated. Some of them, however, were anxious to press the bill with its literacy test to a final conclusion despite the prospect of a presidential veto.

President Wilson already has vetoed immigration legislation because it contained the literacy test.

DETECTIVES AID RAILROADS TO GET SUPPLY OF COAL.

(Associated Press Telegram.) Charleston, W. Va., Dec. 12.—It has become known here that detectives have been stationed by railroad companies and other large coal consumers at nearly every coal tippie in this district for the purpose of checking up the shipments of operators, who, it is claimed, are behind on their orders because of car shortage. The detectives, it is said, will see that the operators carry out their agreements as far as possible.

PRINCIPALS ARE READY FOR THEIR BIG FUSS TONIGHT
Scenery is Set for Bowser-Reed Grudge Bout at Music Hall—Large Crowd Expected.
Tonight at the Music Hall, somewhere between the hours of 8 and 9 o'clock, several hundred wrestling fans in the city of Newark, will, after a three months' wait, have the opportunity of seeing Paul Bowser, world's middleweight wrestling champion, and Ed Reed, challenger, step on the mat for a finish bout.
And if present dope does not go wrong, the match will be one slam bang affair from start to finish. Reed and the local man bear little love for each other, so the former doesn't sidestep the issue at the last moment, the argument will be settled. Bowser several weeks ago at the Auditorium called Reed's hand when he agreed to throw him in 15 minutes or forfeit \$25 to the City Hospital. But the man who claims Akron as his home, remained in his chair while the crowd howled itself hoarse for him to take Bowser on. Reed's alibi was that he was not in condition, although he was supposed to have been training for three weeks.
A couple of weeks later, Bowser agreed to give the man a bout providing he beat Charles Metro in a finish bout. A large crowd turned out to see Reed and the Turk perform. But it was disappointed. At the last minute, Reed left the theatre and could not be induced to go through the match.
But despite all this side-stepping on the part of Reed he remained in the city, continuing to heckle the champion for a bout. Finally Bowser agreed to take him on, so Reed's friends, who also were clamoring for a bout, could see their man in action. Articles were signed and a forfeit of \$100 posted for appearance.

The curtain raiser will be staged at 8:15 and the semi-final about 8:30 o'clock. The main go will probably be on about 9 o'clock, providing Reed shows at the Music Hall. Bowser is determined to end the bout just as quickly as possible, as the affair is not an exhibition, but a plain settlement of a long-standing grudge.

It was learned last night that an extra attraction might be staged between two well known athletes, who for many weeks have been itching to tear each other upon the mat. If the bout materializes the fans will see Justice Fletcher S. Scott and Eppie Freiner endeavoring to tie the other in knots.

NEW YORK PRESS LAVISH IN PRAISE OF GREAT SOLOIST

There is no question about the verdict of the great, enthusiastic New York public which greeted the famous prima donna, Mme. Matzenauer, at her Carnegie Hall recital, November 22. The wealth of floral offerings more than covered the piano, were banked high on the stage and partly obscured the artist, her accompanist and her piano from the public view, and in some of the groups every song had to be repeated. Not was this all. At the end of the program, in spite of the long aria from "Samson and Delilah," which Mme. Matzenauer graciously added, recalls were so numerous as to encroach upon the time set for her departure by special train for Cleveland.

The newspaper critics were lavish in their praise. It should be balm to our local calamity howlers who decried the "lost art of singing" and constantly exulted the past performances of a quarter of a century ago, to know that in 1941 the present optimistic young critics will be greyheads mourning the vanishing of the "eloquent dramatic art" of Caruso, the "deep and sincere forcefulness" of Matzenauer's singing, and the "noble tonal volume and utter emotionalism" of the unforgettable Amato.

In Chicago, Philadelphia, Boston, New York, and other large cities it is customary for an artist to be given a genuine ovation, when the audience crowds about the stage, still calling for encores while the gallery expresses its delight with exclamations of "Bravo." Let the large audience which assembles in our own beautiful Auditorium Theatre at 8:15 this evening to pay homage to the great diva be unreserved in their outward demonstration of their appreciation of her lovely voice. Let Newark and its reception be indelibly and pleasantly impressed upon the memory of Mme. Matzenauer.

NEWARK BOXER MAKES BIG HIT IN INITIAL BOUT

Young Gardner Registers K. O. Over Kid Burgundy in First Round—Downey Defeats Harvey.

Newark fight fans who attended the Bryan Downey-Johnny Harvey 12 round boxing contest, before the Queensbury club at the Columbus Coliseum, last night, saw Young Gardner, of this city, stow away Kid Burgundy, of Columbus, in the first round of a scheduled four round preliminary.

The Newark boy K. O.'d his man with a powerful right across to the jaw before the bout had gone thirty seconds. It was the quickest knockout ever witnessed in a Columbus arena.

Gardner made a great hit with the Capital City fans by his work and will be seen again in Columbus in the future. Tomorrow night he is slated to go six rounds with a tough boy at Portsmouth, but Columbus promoters who have seen both boys in action, say the local lad should cop another K. O.

"Gardner uncorked a kick that many a champion might be proud of," the Ohio State Journal said this morning.

With a little more training and experience, the local lad, who has assumed the cognomen of Young Gardner, should handle with ease any 135 pound boy in the game. He is tall, rangy, possesses a hefty wallop and can assimilate a great deal of punishment.

In the main go, Downey won from Harvey all the way except in one round, when the "Wop" got to the harp with a number of jabs, but none were of the damaging variety. Several times during the bout Downey had Harvey in a bad way. Bryan put his opponent down in the first round for the count of seven and, again in the fifth, he floored the New York boy for the count of eight.

Downey piled up such a lead in the early rounds that Harvey could only have won by a knockout when he got under way along toward the end of the bout. The winner used a left jab and right hook and right uppercut to great advantage and hit the New Yorker almost at will. He rocked Harvey's head many times with stiff left jabs and came right back with a right hook or right uppercut that made Johnny drive to cover.

In only one round did Harvey have a real lead over the Columbus boy, and this was the ninth. Harvey caught Bryan as he came out of the corner with a stiff right to the stomach and followed with a right hook to the jaw. Downey rushed Harvey through the ropes and held him back of the head to keep him from falling out of the ring. As he did so Harvey peppered him with rights and lefts to the body. It was Harvey's round but had Downey let him go, he probably would have fallen out of the ring.

national auxiliary war service law, has to build a new offensive and defensive bulwark in the midst of the great struggle," the chancellor continued. "Behind the fighting army stands the nation at work—the gigantic force of the nation, working for the common aim."

GERMANY'S MOTIVE IS DISCUSSED IN CAPITAL. UNCLE SAM IS MESSENGER.
(ASSOCIATED PRESS TELEGRAM)
Washington, Dec. 12.—News that Germany and her allies were about to enter on peace negotiations was immediately sent to President Wilson. Speaking for the President, Secretary Tumulty said he was deeply interested but could make no comment, at least until it was learned what reception the proposal received from the entente allies.

The state department received its first intimation of Germany's peace proposal through the Associated Press dispatch from which officials assumed that the officers of the neutrals addressed are asked only to transmit the proposals. This will be done so far as the United States is concerned, promptly on receipt of the official dispatch in Washington. They will be forwarded to all the entente countries where the United States represents the Central Powers diplomatically.

Whether the United States would accompany the transmission with any comment or suggestion it was indicated, depends entirely upon the nature of the proposal and whether it is considered likely of consideration. If the offer is deemed one on which all sides might negotiate, the United States probably would urge that it be taken up.

In transmitting the proposals it was officially stated the United States probably would follow the practice which has been invariable so far in acting as the medium of communication between the hostile nations and would not make them public. The terms would, of course, be known to President Wilson and Secretary Lansing who would examine them to determine whether they should be accompanied by any word from the United States. The news from Germany was practically the only topic of discussion among the members of congress as they assembled for the day's session. A regular cabinet meeting was scheduled this afternoon at the White House and there was no doubt it would be discussed there.

The foreign embassies and legations received their first intimation of the event through Associated Press dispatches. On every hand the discussion turned to what had moved Germany and her allies to make their proposals at this time. Although for many weeks there have been persistent and officially denied reports that some peace proposals were about to be made by President Wilson, there was no open indication that the Central Powers themselves were about to make one. Generally the announcement was a distinct surprise in official and diplomatic circles.

One prevailing opinion was that the German allies had brought out their peace offer at this time with the expectation of "making terms which might be acceptable to the allies of England and in effect might possibly cause the British government to yield to the pressure of the nations fighting with her. In this connection, the recent crisis in Russia, in which the duma interfered to prevent the negotiations of a separate peace with Germany, was recalled as an indication of what the German foreign officer might be looked forward to in peace negotiations.

It has been generally acknowledged in entente circles that efforts would be made by Germany to conclude peace separately with her enemies but so far all the entente nations have reiterated their intention to adhere to their agreement made early in the war not to make a separate peace. The recent death of the Austrian emperor, Francis Joseph, and the succession of King Charles to the throne of the dual monarchy also was discussed as one of the considerations which might be a factor in bringing out peace proposals at this time.

The United States represents Austria and Germany in Belgium, France, Great Britain, Japan, Russia, Serbia and Rumania; represents Turkey in France, Great Britain and Japan; has taken over Bulgarian interests nowhere and does not represent any of the belligerent governments in Italy, Portugal or Montenegro.

Dispatches to the German embassy, telling of the chancellor's action arrived soon after the news dispatches. The terms for the restoration of Belgium and portions of France, gave no indication, so far as is known, of stipulations such as generally have been expected by the allies, although they did not absolutely dispose of their possibility.

It was indicated that while the German allies might not entirely expect that the proposals would actually cause a peace conference, they were not without hope that they would, and they were hopeful at least that they would be the means of getting the belligerents together in some manner to discuss the situation and thus, it was expected, would lead to a basis for peace.

If German quarters the crisis in the British cabinet, the coming of winter and the lull in the fighting are given as reasons for making the peace proposals at this time. It is declared that he successes of the Teutonic arms in Rumania should convince the allied powers that the offer is made because of any military weakness. By making the offer now, it is said, the German powers feel that all sides may be

STATE GRANGE NOTES.

Two other State Granges are holding annual meetings simultaneously with Ohio, Pennsylvania and Michigan at Detroit. The Ohio Grange will send telegraphic greetings to both.

Reuben Rankin and wife of Fayette county, are attending their sixteenth successive state meeting as delegates. Both are known to nearly every delegate present.

Ohio State Grange not only believes in equal suffrage but practices it. If a man is elected as a delegate his wife automatically also becomes one and goes to the State meeting with every prerogative that appertains to her husband's position, and the converse also is true. When a woman is elected. It is usual to elect only married people to the State Grange but occasionally a single man or woman is sent as a

delegate. There is only one unmarried woman a delegate this year.

There are seven degrees in Farmers Grange work. The first four are necessary for the subordinate Grange, the fifth for the county, sixth for the State and seventh for the National Grange.

An interesting feature of Tuesday afternoon will be the "Lecturers' Conference," to be held at 3:20. There will be several topics discussed as follows: "How can the Lecturer Cultivate a Love for the Beautiful," by Mrs. C. E. Bell of Dennison; "Community Work and Its Relation to the Grange," J. E. Newell, Superintendent of Schools of Jackson; "Patrons and Preparedness," Mrs. J. E. Tinker, Lecturer for Knox county; "How Can a Lecturer of a Grange Create a Spirit of Loyalty in Members Who are Weak in Program Duty," Miss Ada Neff, of Barnesville. Many other topics came in for a general and informal discussion.

This is the 44th annual meeting of Ohio Grange and the 50th anniversary of the establishment of the order.

The youngest but not the least interested attendant upon the State Grange meeting is Austin James Huff, who is 15 weeks old today. His parents, Mr. and Mrs. H. Huff of Chardow, Ga. county. The next youngest is the 8 months' old son of Mr. and Mrs. N. A. Mealey of Trumbull county.

Miss Dora Ellis of Warren county, now in charge of the mailing department of the Wooster Experiment Station, is the only honorary member in attendance who was present when the Ohio State Grange was organized at Lebanon, 44 years ago. Miss Ellis looks as if she must have been very young at that time.

Agent Wilson is Promoted; Change In Local Office

The passenger department of the Baltimore and Ohio railroad company, today, announced a number of important changes in the local ticket office, effective December 1.

William C. Wilson, present agent, has been made passenger and ticket agent. Raymond C. Turner, assistant ticket agent and Louis W. Wall, night assistant ticket agent.

The changes in the local office means a promotion for Mr. Wilson, who has been ticket agent here for some time. The addition of passenger agent to his work, will take him away from the office considerably in the interest of securing new business for the company. The office will be under Mr. Wilson's supervision but in charge of Mr. Turner.

It isn't to be wondered at that a man feels restless when even his bills are unsettled.
